## GENERAL INSTRUCTIONS

This instruction manual describes the data elements collected by the Nebraska Student and Staff Record System (NSSRS) via the Postsecondary Data Manager. Valid values and data validation rules that can be performed prior to data submission are listed where appropriate. NSSRS validations ensure data submitted is of high quality. A link to an interactive list of all NSSRS validations is available on the NSSRS Resources page of the NSSRS website (<http://www.education.ne.gov/nssrs>).

See

APPENDIX B – File Layouts for field types and field lengths.

### Scope

All undergraduate students enrolled in courses for credit at the institution during the 2017 school year (Academic Year Ending 2017) are reported. Academic Year Ending 2017 will span July 1, 2016 through June 30, 2017.

Only institutions that are required to report data pursuant to the Carl D. Perkins Career and Technical Education Act need to submit the “Perkins Students” and “Perkins Courses” files. Other institutions should not submit these two files.

**Data Element Names**

The following syntax is used throughout this document when referencing data elements.

Format: \* NDE Field Name [File Specification:Field Name(Field Number)]

Where:

- An asterisk (\*) indicates the data element is a key field. A value must be supplied in all key fields for each record or the data loading process will reject the record.
- **NDE Field Name** represents the name of the data element commonly used by the Nebraska Department of Education (NDE).
- **File Specification** indicates the formal name of the file specification.
- **Field Name** indicates the formal name of the field within the file specification.
- **Field Number** indicates the position of the field within the file specification.

Example: \* Institution Code [Postsecondary Enrollment:Institution Code (1)] indicates a key field referenced at NDE as "Institution Code" that is the first field on the Postsecondary Enrollment file specification with a field name of "Institution Code."

**Academic Year Ending**

June 30 is used throughout NSSRS as the logical representation of a school year. However, postsecondary data will be organized by academic year using Academic Year Ending. Since this document applies to the 2017 academic year, the Academic Year Ending field will simply read: "2017".

# POSTSECONDARY ENROLLMENT

**POSTSECONDARY ENROLLMENT**

The Postsecondary Enrollment file specification collects student demographic data of undergraduate students enrolled in courses during a particular term of an academic year. Unless otherwise specified, a value must be provided for each field listed.

**\* Institution ID [Postsecondary Enrollment:Institution ID (1)]**

Provide the institution identifier assigned by NDE including the hyphen ("-") in the format "##-####". This is a key field; a value must be supplied for each record or the data loading process will reject the record.

**\* NDE Student ID [Postsecondary Enrollment:NDE Student ID (2)]**

Provide the 10 digit Nebraska Department of Education Student Identifier. This is a key field; a value must be supplied for each record or the data loading process will reject the record. This ID is validated against the Nebraska Uniq-ID system during the File Validation process.

**Postsecondary Student ID [Postsecondary Enrollment:Postsecondary Student ID (3)]**

Provide the unique number used to identify an individual student at the institution. This field may be left blank if a separate identifier is not assigned. The Postsecondary Student ID will be included in NSSRS validations and NSSRS verification reports to assist institution staff research and resolve data issues.

PERKINS  
COURSES**

## POSTSECONDARY PERKINS COURSES

The Perkins Courses file specification collects the entire course history, through the end of the 2017 academic year, for each of the students listed in the Perkins Students file. At a minimum, all courses with an REU Course Weight of 1.5 or 2.0 should be reported. A Perkins Students record must be submitted for each student appearing in the Perkins Courses file.

Institutions that are not required to submit Perkins data may skip this file.

### \* **Institution ID [Postsecondary Perkins Courses:Institution ID (1)]**

Provide the institution identifier assigned by NDE including the hyphen ("-") in the format "##-####". This is a key field; a value must be supplied for each record or the data loading process will reject the record.

### \* **NDE Student ID [Postsecondary Perkins Courses:NDE Student ID (2)]**

Provide the 10 digit Nebraska Department of Education Student Identifier. This is a key field; a value must be supplied for each record or the data loading process will reject the record. This ID is validated against the Nebraska Uniq-ID system during the File Validation process.

### \* **Academic Year Ending [Postsecondary Perkins Courses:Academic Year Ending (3)]**

Provide the literal "2017". This field corresponds to the year that this file is being submitted under, and is not related to the academic year in which the course was taken by the student. This is a key field; a value must be supplied for each record or the data loading process will reject the record.

### \* **Course Year [Postsecondary Perkins Courses:Course Year (4)]**

Provide the four-digit academic year during which the student was enrolled in this course. This field should be less than or equal to the current Academic Year Ending (3). This is a key field; a value must be supplied for each record or the data loading process will reject the record.

### \* **Course Term [Postsecondary Perkins Courses:Course Term (5)]**

Provide the institution-selected value representing the term during which the student was enrolled in this course. The term can be from a year prior to the current Academic Year Ending (3), however it must be one of the values that were previously specified via the Postsecondary Terms collection in the Consolidated Data Collection (CDC) system available on the NDE Portal (<http://portal.education.ne.gov>). This is a key field; a value must be supplied for each record or the data loading process will reject the record.

### \* **CIP Code [Postsecondary Perkins Courses: CIP Code (6)]**

Provide the six-digit CIP (Classification of Instructional Programs) code in the format ##.#### that identifies the primary instructional program specialty to which this course belongs. Refer to IPEDS reporting requirements for a list of valid CIP codes (2010 version). Only CIP Codes that are linked to a CTE Career Cluster area will be counted in Perkins reporting, refer to [Appendix D](#) for a table of CIP Code prefixes cross-referenced with CTE Career Clusters.

**\* Postsecondary Course Code [Postsecondary Perkins Courses:Postsecondary Course Code (7)]**

Provide the institution's own unique alphanumeric course identifier (up to 20 characters). This is a key field; a value must be supplied for each record or the data loading process will reject the record.

**Course Name [Postsecondary Perkins Courses:Course Name (8)]**

Provide the institution's own course name specific to the identified course (up to 1000 characters), to be used in reviewing data submissions. This field is optional and can be left blank.

**Course Credit Hours [Postsecondary Perkins Courses:Course Credit Hours (9)]**

Provide a decimal indicating the number of credit hours earned for completing the specified course in the format *#.##* . Provide "0.0" for a course that does not offer credit.

**Course Weight/REU Factor [Postsecondary Perkins Courses:Course Weight REU Factor (10)]**

Provide a decimal indicating the course weighting used for this course as detailed by the Nebraska Community College State Aid Enrollment FTE/REU Guidelines document, in the format *#. #*. It is expected that a Career & Technical Education course used in Perkins reporting has a weight of 1.5 or 2.0.

**Course Grade Points [Postsecondary Perkins Courses:Course Grade Points (11)]**

Provide a decimal indicating the number of grade points the specified student earned for completing this course in the format *#.##*. Use a 4-point scale, where an "A" grade would be 4.0 while a "D" would be 1.0, and an "F" would be 0.0. A Pass/No Pass course may be reported with a blank in this field; do not submit "0.0" for these courses, as it will negatively affect GPA calculations.
