WHO WE ARE

NPPD's Energy Education Program provides opportunities for students to gain knowledge while acquiring practical skills and expertise that will enable them to be successful in the Science, Technology, Engineering, and Math (STEM) workforce. We strive to deliver specific and consistent messages to schools and communities about electricity, safety, energy resources, and how citizens can make informed energy decisions.

PROGRAMS WE OFFER

Programs we offer: We offer a variety of resources for afterschool programs. <http://ow.ly/I16A30fUpvq>

- Science Festivals
- Career Outreach
- Presentations (circuits, solar energy, wind energy, electricity, etc.)
- STEM Challenges
- Robotics
- Nebraska Green Schools

*** In person presentations are only available to schools within NPPD's service area. Afterschool programs will only be scheduled if classroom teachers schedule presentations as well.*
