

# Nebraska One-Year Opportunity Grant

## END OF GRANT SUMMARY

### PROJECT NAME

**Omaha Engineering and Art**

### GRANTEE

Collective For Youth

### OVERVIEW

Collective for Youth's Omaha Engineering and Art project was concentrated on developing 21st century skills and exposing students to a variety of careers. The project enhance the existing afterschool programs in three areas- engineering, agriculture, and the creative arts. In addition to expanding programming, the project focused on strengthening the professional development options for staff members. Within the year, several trainings were available for staff members to learn how to provide hands on programming directly related to engineering, agriculture and creative arts.

### SITES

Students in grades K-8 benefited from this project.

The three following Omaha Public Schools (OPS) middle schools participated; Monroe, McMillian Magnet, and Lewis and Clark. The fourteen following OPS elementary schools participated in the project: Bancroft, Belvedere, Castelar, Central Park, Gilder, Hartman, Highland, Indian Hill, Howard Kennedy, King, Liberty, Miller Park, Saratoga, and Sherman.
