

# Lower Republican Natural Resources District

# Educational Outreach

## Classroom Activities

Hands on activities available to district schools. Geared toward 3 & 4th grade. Soak it Up teaches about buffers and Edible Aquifers educates on groundwater protection.

## Scholarships

The LRNRD annually grants two college scholarships, each worth \$1,000, to eligible district high school or college students attending a Nebraska higher education institution in a natural resources related field.

Two scholarships are given to Adventure Camp about the Environmental for 6th, 7th, and 8th graders each year.

Two scholarships every year to Nebraska Youth Range Camp for 14-18-year-olds.

## Water Jamboree

An educational fun day for fifth and sixth grade students, is a cooperative effort provided by the LRNRD, Tri-Basin NRD, University of Nebraska Cooperative extension and the Natural Resources Conservation Service. The event is held annually on the third Wednesday and Thursday in April, located at sites around the Harlan County Reservoir.

## High School FFA/Science Contests

We are in rotation with other NRDs in the contest areas to host and organize Range Judging & Land Judging contests along with other agencies.

## Poster Contest

They are given a theme about protecting or enhancing our natural resources. K-12 students in the district are eligible.

## State Fair

LRNRD along with other NRDs to have a booth at the fair to do Wildlife CSI.

See our website [www.lrnrd.org](http://www.lrnrd.org) for more information about these programs.
