

The ADVISER Data System will be the NDE Student Data Collection System beginning 2018-2019. All districts will use a Certified SIS Vendor for data reporting on or before July 1, 2018.

# The NSSRS to ADVISER Roadmap

The term/acronym ADVISER is used to describe the overall program and stands for Advanced Data Views Improving Student Education Response. What was once NSSRS will soon become ADVISER.

Ed-Fi is the product/technology that NDE uses to collect data. Ed-Fi allows districts to push data from local systems with no uploading needed. This allows districts to see near “real time” results.

**NDE’s implementation of Ed-Fi is called ADVISER.**

## ADVISER Data System

The ADVISER Data System is where state/federal accountability data lives. This data feeds the ADVISER Dashboard.

ADVISER Data System  
Timeline

### Summer 2018

- All districts connected to ADVISER Data System
- All districts verify year-end data via the ADVISER Validation website (reports, look ups, and errors)

### Fall 2018

- ADVISER Data System is sole source of 18-19 student data (membership, enrollment, special education, early childhood)
- NSSRS work days will be replaced with ADVISER work days
- NSSRS will be used for 17-18 resubmission and follow-up data

### Spring 2019

- ADVISER Data System is sole source of 18-19 student data (student demographics, enrollment, special education, grades, attendance, career education, early childhood, etc.)

ADVISER Dashboard  
Timeline

### Summer 2018

All districts data staff can access the Dashboard

### Fall 2018

Pilot districts and ESU staff collaborate to develop user training.

### Spring 2019

Dashboard user training adopted for all districts. Districts control training timeline for Dashboard users.

## ADVISER Dashboard

The ADVISER Dashboard is an optional web-based view of student and staff data that gives educators the opportunity to make data-driven decisions that can be accessed with a single sign-on. Educators can also view student data updated daily.
