The Nebraska Standards for Career Ready Practice were unanimously adopted by the Nebraska State Board of Education on December 8, 2011.

A career ready person capitalizes on personal strengths, talents, education and experiences to bring value to the workplace and the community through his / her performance, skill, diligence, ethics and responsible behavior.

This simple sentence will change the face of Nebraska education. And, as a result, the future of our entire state.

Wouldn't it be something if every student graduating from a Nebraska high school fit this description? If every graduate was "Career Ready?" If every high school graduate brought these attributes to the next stage of his or her life—either in the workplace or on a college campus?

Imagine the effect on Nebraska communities, Nebraska businesses, Nebraska's economy. Imagine the effect on Nebraska's future.

Ensuring that every student who graduates from a Nebraska high school is Career Ready is not a simple task. And it won't happen overnight.

Career Readiness is our objective. And Nebraska's schools are determined to achieve it.

How are Nebraska schools going to achieve

Nebraska Standards for Career Ready Practice provide learning experiences that are valuable to every student regardless of career path or college plans.

By incorporating the **Nebraska Standards for Career Ready Practice** into appropriate curriculum, programs and extra curricular activities as they are developed, implemented and evaluated.

By integrating core academic courses and career education programs to bring even greater relevance and value to every student's school experience.

By providing opportunities for students to become aware of career choices throughout their education—as early as elementary school.

By helping students understand the relationship between today's educational choices and tomorrow's career potential.

Career Readiness for every student?

by developing *Personalized Learning Plans* for each student to help them match their educational plans, interests and talents with careers that offer the greatest promise for success.

By linking the student, the classroom and the counselor's office to facilitate student success in high school, college and the workplace.

By engaging students in ways that build their confidence, encourage personal responsibility and develop behaviors that are critical to success in their personal and professional lives.

By creating opportunities for parents and their children to explore career possibilities together.

By providing students who have the entrepreneurial spirit with the skills, encouragement and inspiration needed to start their own business.

By establishing even stronger relationships with business and industry to ensure that students are acquiring the skills needed for high skill, high wage and high demand Nebraska jobs of today and tomorrow.

All these initiatives are driven by one powerful, game-changing, life-changing concept in Nebraska schools: **Career Readiness.**

Career Readiness is about the next step in life.

Career exploration tools such as [NebraskaCareerConnections.org](https://www.NebraskaCareerConnections.org) can help students discover career options they didn't know they had—and the educational path that leads to success.

When students are **Career Ready**, they are prepared for the next step in their lives—whether that means getting their first job or beginning their college “career” (which eventually leads to the workplace as well)!

Every Nebraska student, regardless of background, interests or intent after graduating from high school, can and should be **Career Ready**. Because being **Career Ready** also means being ready for life.

Nebraska Standards for Career Ready Practice are about the basics. A strong academic foundation—and personal ethics. Speaking and writing effectively. Analyzing situations and solving problems. Understanding fundamental concepts in math and science. Being where you're expected to be—when you're expected to be there. Meeting deadlines. Conducting yourself professionally.

Career education courses help students discover their talents and may provide the entrepreneurial spark for them to start a business in their community.

And the many steps after that.

Career Readiness is about knowing your stuff. Understanding available technology and how and when to use it appropriately. Using what you know to address new challenges and new opportunities. Knowing what you don't know—and being enthusiastic about learning more and getting even better. Having the knowledge, drive and confidence to start your own business.

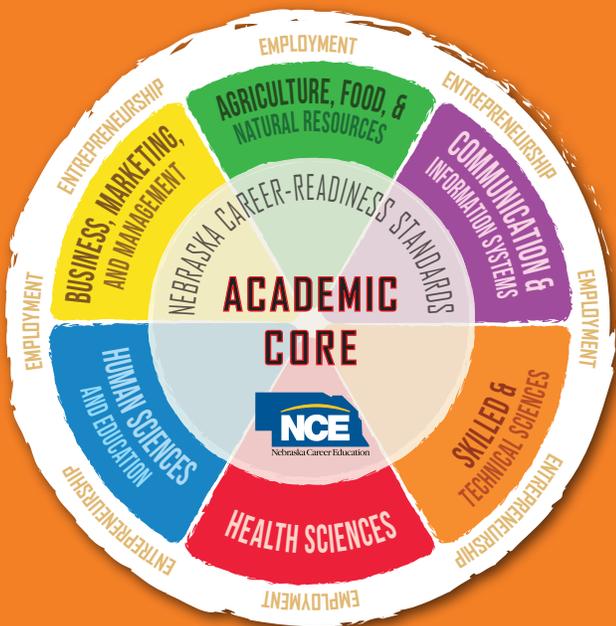

Career Readiness is about relationships. Collaborating with co-workers. Respecting the opinions, privacy and cultures of others. Working well on your own and as a member of a team. Accepting responsibility and understanding the consequences of your decisions. Making healthy choices. Understanding your role in the bigger picture of your community, state, nation and world.

Career Readiness is about generating a powerful, homegrown workforce across Nebraska. Creating a steady supply of responsible leaders and skilled employees in a wide range of industries—in all 93 counties. Inspiring young entrepreneurs and young professionals to start businesses in their hometowns.

Career Readiness means a more vibrant economy, a sustainable business environment—and greater opportunity, growth and revenue for Nebraska at every level.

NEBRASKA STANDARDS FOR

career readiness

The **Nebraska Standards for Career Ready Practice** describe varieties of expertise that educators at all levels should seek to develop in their students. These standards rest on important “practices and proficiencies” with long-standing importance in career education. These standards and related practices are not limited to formal CTE programs nor to the middle school or high school level. Rather, these standards and practices should be used over and over again with increasing complexity and relevance by students as they progress through their educational pathway. The standards themselves do not dictate curriculum, pedagogy or delivery of content. Schools and colleges may handle the teaching and assessing of these standards in many different ways.

The **Nebraska Standards for Career Ready Practice** were derived from extensive input from business and industry representatives expressing the most critical skills needed for employee and/or entrepreneur success. The standards were developed in conjunction with the *National Career Clusters Framework*. The *Career Cluster Framework* has been developed over the past decade with input from national business and industry committees representing the 16 comprehensive Career Clusters. In short, the **Nebraska Standards for Career Ready Practice** provide a valid source of workplace expectations for all students to be career ready.

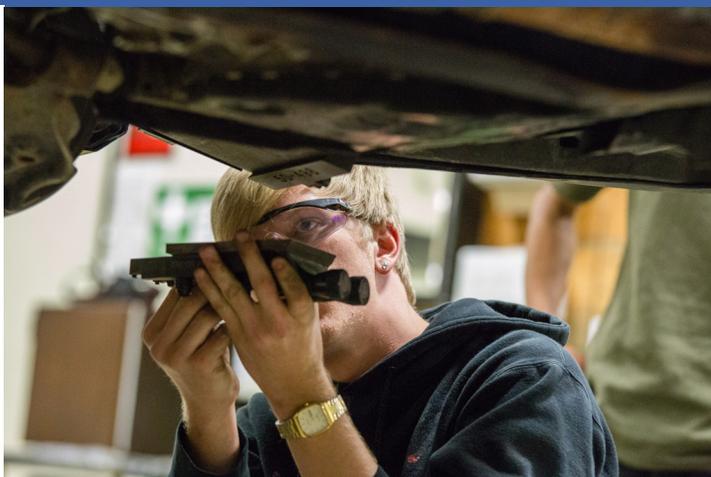

The following standards are provided as a resource to assist schools, colleges, teachers and faculty members in defining curricular and assessment outcomes. The benchmarks are provided as examples and are neither exhaustive nor conclusive. Educators are encouraged to work with local business and industry councils to define learning objectives most appropriate for their situation.

An alignment study to Nebraska's academic standards is also available at: www.CEStandards.education.ne.gov.

Additionally, the Career Readiness Inventory (CRI) is now available on NebraskaCareerConnections.org. This tool allows students to assess their own performance on the **Nebraska Standards for Career Ready Practice** and receive feedback on their performance from three to five individuals. It also provides a graph of the students' self-assessment as well as a consolidated score from the other individuals.

NEBRASKA STANDARDS FOR **career readiness**

Nebraska Career Education:

Career education courses help college-bound students make an easier transition between high school and college.

Nebbraska Standards for Career Ready Practice are about improving the value, impact and relevance of students' education—from elementary through high school.

Nebraska Standards for Career Ready Practice are about improving the prospects for all students' success in college and the workplace.

Nebraska Standards for Career Ready Practice are about a shared vision and purpose for all professionals in a school system.

Nebraska Standards for Career Ready Practice are about strengthening the role of Nebraska schools in economic development throughout the state.

Nebraska Standards for Career Ready Practice are about providing a foundation to build strong individuals, families and communities across Nebraska.

For more information on Career Readiness and the career education programs in your school district, visit with your local school or go to:

www.education.ne.gov/nce/Standards.html

An important component in Career Readiness.

Career education courses play an important role in **Career Readiness** by offering real-life work experiences, leadership opportunities and confidence building. When career education courses are integrated with core academic courses, school counseling, parental involvement and collaboration with business and industry, it's no longer simply about education. It's also about sustainable economic development for every Nebraska community. Developing a skilled and talented workforce that is prepared to lead, collaborate and innovate in the industries and professions that matter to Nebraska's future. Improving the prospects of success as students transition from high school to college. Inspiring young entrepreneurs and professionals to start businesses in their hometowns. Creating involved citizens, strong families and economic vitality in every Nebraska county.

Career Readiness is purpose-driven education—and career education courses are critical to achieving **Career Readiness** in every Nebraska student.
