Good Afternoon Friends!

Well, we have confirmation that the formative is talking to the summative. It was run by InTASC Category and holistically.

Also, Christina ran correlational by item to see if any could be eliminated/the formative could be reduced. There were 5 items that could be combined. There are now 32 items. We have attached a copy with the changes and an updated copy. This takes us down to 32.

I think this is great and continues to validate the work we have done. Thank you all for your support as we have moved through several drafts of the formative assessment. This will be the last one from this study. Thank you also to NDE for the support to do the study.

We will be presenting this information at Administrator Days on Wednesday, July 25, 2018 in Kearney.
