

FIVE ROLES

For Equity in Education

WE will **CHAMPION** educational equity by actively leading the strategic vision, goals, and policy direction to support learning, earning, and living for all students.

WE will **REGULATE** educational equity by leveraging policy authority to ensure delivery of high-quality, equitable education and services, beyond compliance with state and federal regulations.

WE will **BUILD CAPACITY** around educational equity by directing technical assistance and professional development opportunities and by promoting the sharing of best practices.

WE will **BUILD CONNECTIONS** in support of educational equity, bridging the divide between learning, earning, and living, connecting schools, families, businesses, and communities.

WE will demonstrate **CHANGE AGENCY** by exploring and supporting promising new innovations that advance educational equity.
