

# Goals for Family Engagement

Clarify goals for family engagement. Work with staff to develop short and longer-term goals, and ensure that all work as a team to achieve them. For each goal, list the steps involved, person or people responsible, and the resources or materials needed.

Goals	Steps Involved	Who is Responsible	Resources Needed
Create a program space where all families feel welcome			
Ensure the needs of culturally and linguistically diverse families and students are met			
Help families gain access to the organizations, people, and resources they need to support their children and themselves			
Find innovative and differentiated ways to involve families that utilize their skills and address their concerns			
Help families find additional ways to be involved in their children’s lives and support their healthy development			
Support better student behavior and academic performance in school and the program
