

Paper and Tape Challenge : Tower

Using only paper and tape, construct a tower as tall as you can get it, while meeting these criteria:

- * It must stand on its own.**
- * It cannot be taped to the table or the floor....it must be free-standing.**
- * It must be able to stand on its own for at least 10 seconds.**

Now try it! Were you successful? Try changing the design a little. How can you make the tower sturdy?
