

## Workplace Observations

### Learning Goal:

Identify the application of Nebraska Career Readiness Skills in the workplace.

### Instructions:

The Nebraska Career Readiness Skills are practices and proficiencies needed in all businesses and industries. Your task is to identify when and where you see these skills being applied in the workplace.

### Complete the following two items:

- *Student Observations* - Look for evidence of the skills while observing a workplace. Use the table to keep track of what you see or learn. If you do not observe a particular skill, please ask for an example if possible. The skill is provided in the left column and your notes will be written on the right.
- *Reflection* - Upon completion of your workplace observation, answer the reflection question.

Career Readiness Standards	Student Observations
1. Applies appropriate academic and technical skills 	How does this business/industry display evidence of individuals applying academic and technical skills?
2. Communicates effectively and appropriately 	How does this business/industry display evidence of individuals expressing ideas, providing instructions, informing others, sharing knowledge and providing customer service?
3. Contributes to employer and community success 	How does this business/industry display evidence or examples of how the success of this business/industry contributes to the success of the community/city or surrounding area?
