This user guide discusses eDIRECT, the interface to the administrative functions of the DRC INSIGHT Online Learning System.

The primary users of eDIRECT are District Assessment Contacts (DACs), School Test Coordinators (STCs), District Technology Coordinators (DTCs), and Test Administrators (TAs). The primary audience for this guide is both eDIRECT end users and eDIRECT administrators.

This guide is divided into the following sections.

Working with eDIRECT

Describes how to access and log on to eDIRECT, as well as some of its more common menu functions and options for end users.

General Information Menu

Covers tasks that users can perform in eDIRECT, including resetting their passwords and recovering forgotten userIDs and passwords, and downloading information and software.

User Management Menu

Covers administrative tasks that DACs can perform using eDIRECT, including editing and updating user information, resetting passwords, activating and deactivating users, and adding new users.

Student Management Menu

Describes the options that DACs and STCs have for editing student information and test sessions, and uploading student information.

Test Management Menu

Describes the options that DACs and STCs have for working with test sessions and test tickets.

Report Delivery Menu

Briefly discusses the reports and online testing statistics that are available through eDIRECT.

For online testing, eDIRECT categorizes people into various roles and levels—District, School, Test Administrator, and District Technology Coordinator. Within eDIRECT, each role level is assigned a set of testing functions called permissions to allow the people at that level to handle the testing responsibilities associated with the role.

The table on the following page lists the current eDIRECT permissions, the path in eDIRECT to where the function the permission allows is located, the permission’s name in eDIRECT, and the roles currently assigned the permission.
<table>

*Test Administrator  **District Technology Coordinator
① You must have this permission to use any other Test Setup permissions.
② You must have this permission to use any other Students permissions.
③ You must have this permission to use any other Test Sessions permissions.
Working with eDIRECT
Working with eDIRECT

Accessing eDIRECT

You access eDIRECT from the Welcome to the eDIRECT page.

1. To access eDIRECT, enter the URL [https://ne.drcedirect.com](https://ne.drcedirect.com) in a supported browser. The Welcome to the eDIRECT page appears containing helpful information about documentation and support resources.

2. From the Welcome to eDIRECT page you log in to eDIRECT. Enter your username and password in the Please Log In dialog box, and then click Log In.

Within the ACCESS NSCAS ONLINE TOOLS TRAINING WITH GOOGLE CHROME section of the Welcome to eDIRECT page, you can copy the link into a Chrome browser to access Online Tools Training (OTT), tutorials, and practice tests.

Note: You do not need to be logged in to eDIRECT to try these items.
3. The first time you log in to eDIRECT the Accept the Security and Confidentiality Agreement page displays. You must check the Accept Security Agreement checkbox and click Confirm Accept to continue.

**Note:** You cannot continue to use eDIRECT without checking this checkbox. To read the Security Agreement, see “Displaying the Security Agreement” on page 16.
Accessing eDIRECT (cont.)

After a successful log in, the Welcome to eDIRECT page reappears with additional information about navigating the site.

4. When the Welcome to eDIRECT page reappears, click the **All Applications** option to display a menu bar containing the various eDIRECT functions that you have permission to use. For more information about these functions, refer to the specific section in this user guide.
Managing Your Account

This topic describes how to manage your eDIRECT account. Within the DRC portal you can change your username, email address, name, or password.

⚠️ Important: If you are unable to change your username, email, or name, please contact DRC Customer Service at 1-866-342-6280 or email at necustomerservice@datarecognitioncorp.com.

1. To manage your account, sign in to eDIRECT and click your user name in the right-hand corner of any page to display the Manage Account page.

2. Click edit next to the account information you want to change: Username, Email, Name, or Password.

3. To make any changes you must log in again to the portal.
Managing Your Account—Changing Your Username and Email Address

1. When the Manage Account page displays, click Change username and email address to change your username and email address.

2. When the Update Username page displays, enter your new username in the New Username and Confirm New Username fields and click Update Username (or Cancel to cancel the process).

   Note: Your username and email address must match. To update your email address at the same time, verify that the update email to match username? checkbox is checked (the default value).
Managing Your Account—Changing Your Name

1. When the Manage Account page displays, click **Change name** to change your name.

2. When the Update Name page displays, enter your new first name in the **First Name** field (required), your last name in the Last Name field (required), and your middle name in the Middle Name field (optional). Click **Update Name** (or **Cancel** to cancel the process).
Managing Your Account—Changing Your Password

This topic describes how to change your password within eDIRECT for existing eDIRECT users only. If you are a new eDIRECT user, you receive an email containing a temporary username and a link. Clicking the email link displays a screen that allows you to choose your password. Then, you are prompted to read and accept the Security Agreement to activate your account (see page 9).

1. When the Change Password page displays, you can change your password. The password must meet the following conditions:
   - The password must contain at least eight characters, including:
     - At least one numeric character
     - At least one lowercase character and at least one uppercase character
     - At least one of the following special characters: !@#$%^&*
   - The password cannot contain your username, first name, or last name.

2. Enter your current password in the Current Password field, your new password in the New Password and Confirm New Password fields, and click Update Password (or Cancel to cancel the process).
Managing Your Account—Recovering a Forgotten Username or Password

If a user forgets his or her password or username, the user can attempt to recover it. If the request is successful, the user receives an email containing his or her username or password.

1. If you are an existing eDIRECT user and you forget your username or password, click the **Forgot your username or password?** link on the Please Log In dialog.

2. When the Log In Help page appears, click **I don't know my username** to recover your username, or **I don't know my password** to recover your password.

3. Enter the correct information in the dialog box that displays and click **Send**. An email will be sent to you containing your username or password, based on your request.
   - To recover your username, when the Recover Username dialog appears, enter your eDIRECT email address in the Email Address* field and click **Send**.
   - To recover your password, when the Recover Password dialog appears, enter your eDIRECT username in the Username* field and click **Send**.
Displaying the Security Agreement

You can click the **Security and Confidentiality Agreement** link at the bottom of any eDIRECT page to display the Accept the Security and Confidentiality Agreement for eDIRECT page (you also can print the agreement). The first time you access eDIRECT, you must agree to the terms of the agreement to continue using eDIRECT (see page 9).

---

**Security and Confidentiality Agreement for DRC Applications**

The DRC Applications are designed for State, District, and School level personnel and contain confidential and private information, including, but not limited to, secure test materials, test scores and student demographic information. The system is password protected and requires a username and password for access.

The secure test materials are proprietary information of its owner(s), and are provided to those authorized individuals who are legally bound to maintain the security of the test. In order to access the secure test materials you must first agree to these terms to keep the test materials secure and confidential and not disclose or reproduce any information about the secure test materials except to your authorized capacity.

The system is not for public use, and any student information from the system must not be disclosed to anyone other than a State, District or School official as defined by the Family Educational Rights and Privacy Act of 1974 (FERPA). Under FERPA, a school official is a person employed by the State, District or School as an administrator, supervisor, District Test Coordinator, school test coordinator, principal, teacher, or principal’s designated office staff. Such a user must have a legitimate educational purpose to review an educational record in order to fulfill his/her professional responsibility.

State, District, and School users who are granted permission to this system must read and abide by the Family Educational Rights and Privacy Act (FERPA). Disclosure of passwords to any one unauthorized to use the system is prohibited. Disclosure of students’ data to their parent or guardian must be in accordance with FERPA. For more information on FERPA, see the U.S. Department of Education websites at http://www.ed.gov/officials/com/fp/ferpa.

By agreeing to these terms, I hereby certify that I will maintain the confidentiality of secure test materials, system passwords, and student data accessed through the DRC Applications and will not share information with unauthorized individuals. If I leave the position that allowed me to access this information, I will neither access nor disclose any data previously accessed through the system. Further, I will destroy any data accessed through the system. If such data is no longer being used to serve a legitimate educational purpose, I understand that I must continue to access, disclose, or retain such information would be in violation of the Family Educational Rights and Privacy Act (FERPA).

I shall maintain the security and confidentiality of all secure test materials and system passwords and only access the secure test materials in my authorized capacity.

I hereby acknowledge that I have read and understand the terms of this Security and Confidentiality Agreement. Further, I agree to abide by the requirements found in the Family Educational Rights and Privacy Act (FERPA).
Displaying the Minimum Browser Requirements

You can click the Minimum Browser Requirements link at the bottom of any page to display the Minimum Web Browser Requirements page listing browser requirements, with links to browser pages and additional information. This page details the eDIRECT web browser requirements for the Windows, Mac (OS X and macOS), and Linux operating systems.

When you click the Minimum Browser Requirements link at the bottom of the page, the Minimum Web Browser Requirements page displays a list of the web browsers that are certified to use with eDIRECT.

The page contains links to web browser home pages, organized by user (operating system)—PC Users (Windows), Macintosh Users (Mac OS X and macOS), and Linux Users (Linux)—that you can use to learn about and download different web browsers.

The Additional Information section contains links to descriptions of other items such as JavaScript and session-based cookies that are required for browsers to use eDIRECT.
General Information Menu
**Introduction**

When you open the eDIRECT All Applications menu bar and click the General Information menu, three options are available: Announcements, Documents, and Downloads.

Click **Announcements** to display the latest information regarding NSCAS testing.

Click **Documents** to select, open, and download various training items from the Documents page.

**Announcements**

**Nebraska Customer Service**

Toll Free (856) 342-6280

email necustomerservice@datarecognitioncorp.com

8:00 a.m. - 5:00 p.m. M-F CST
Click **Downloads** to download the Testing Site Manager (TSM), DRC INSIGHT, and the Capacity Estimator. From the Test Setup General Information page you can download versions of DRC INSIGHT and the TSM for various operating systems and configurations.
User Management Menu
This section of the user guide discusses the various user administration tasks you can perform from the User Management menu of the eDIRECT All Applications menu bar.

- Edit permissions for one or more users
- Assign a user to an administration
- Reset a user’s password

⚠️ Important: If you are unable to change a user’s username, email, or name, please contact DRC Customer Service at 1-866-342-6280 or email at necustomerservice@datarecognitioncorp.com.

- Inactivate a user
- Activate a user
- Add a single user to eDIRECT
- Upload multiple users to eDIRECT
Adding Permissions for a Single User

From the Edit User tab, you can add permissions to a user’s account.

1. Open the eDIRECT All Applications menu bar and click User Management to display the User Administration page.

2. Click on the Edit User tab, use the various drop-down menus and fields to enter search criteria to help locate the user and click Find User.

3. In the Action column click the View/Edit icon ( ) to display the Edit User dialog box.

4. Click Add to display the Add Permissions Screen.
Adding Permissions for a Single User (cont.)

5. When the Add Permissions dialog box displays, select permissions from the Available Permissions list to add to the user. Use the Add Selected arrow ( ) to add the permissions, and click Save.
   - To select multiple permissions in sequence, hold down the Shift key while you select them.
   - To select multiple permissions that are not in sequence, hold down the Ctrl key while you select them.
   - Use the Add All arrow ( ) to add all permissions.
   - Click the Clone from Another User icon ( ) to copy another user’s set of permissions.

6. Click Save when you are finished to save your changes or Cancel to cancel them.

Note: You can use the Permission set drop-down menu to select a suggested set of default permissions for different roles in the system.
Editing a Single User’s Permissions

From the **Edit User** tab, you can add or remove permissions for any user in the system.

1. To edit a user’s permissions, click the **Edit User** tab, use the various drop-down menus and fields to enter search criteria to help locate the user, and click **Find User**. In the Action column click the **View/Edit** icon ( ). The user displays in the **Edit User** window.

2. Click the **Permissions** tab to display the Permissions dialog box. In the Action column click the **View/Edit** icon ( ).
3. When the Edit Permissions dialog box displays, select permissions from the Available Permissions list to add to the user, or permissions from the Assigned Permissions list to remove from the user. Use the Add Selected (↑) or Remove Selected (↓) arrows to change the permissions, and click Save.

- To select multiple permissions in sequence, hold down the Shift key while you select them.
- To select multiple permissions that are not in sequence, hold down the Ctrl key while you select them.
- Use the Add All (►) and Remove All (◄) arrows to add or remove all permissions.
- Click the Clone from Another User icon (►) to copy another user’s set of permissions.

4. Click Save when you are finished to save your changes or Cancel to cancel them.
**Inactivating a User**

You can inactivate eDIRECT users that are currently active. When a user is inactivated, the user is unable to access eDIRECT (to reactivate a user, see “Activating a User” on page 28).

**Note:** When a user is inactivated, the user *does not* receive an email.

1. To inactivate a user, click the **Edit User** tab, use the various drop-down menus and fields to enter search criteria to help locate the user, and click **Find User**.

2. In the Action column, click the **Inactivate** icon ( ) for the user you want to make inactive.

3. When the Inactivate User dialog box displays, click **Inactivate** to make the user inactive or **Cancel** to cancel the process.
**Activating a User**

You can activate an eDIRECT user that is currently inactive so the user can access eDIRECT again (to inactivate a user, see “Inactivating a User” on page 27). When the user is activated, an email notification is sent to indicate that the account has been reset and to provide a new temporary password.

**Note:** Users are activated automatically when they first log in to eDIRECT. Only users that were previously inactivated need to be activated manually.

1. To activate a user, click the **Edit User** tab, use the various drop-down menus and fields to enter search criteria to help locate the user, and click **Find User**.

2. In the Action column, click the **Activate** icon (.remaining) for the user you want to make active. When the user is activated, the following message displays: **The user has been activated.**
Adding a User

When you add a user, specify the permissions the user will have. Refer to the “The eDIRECT Permissions Matrix” on page 5 for permissions assignments by role.

1. To add a user, from the Manage Users menu select the User Administration option and click on the Add Single User tab.

2. Fill out the required fields and required options from the drop-down menus.
   Note: A required field or menu option has a red asterisk (*) next to it.

3. Select a permission from the Available Permissions list and click the Add Selected icon ( ) to assign the permission to the user (“Editing a Single User’s Permissions” on page 25).
   Note: A description of the permission selected displays beneath the list of permissions.
   Click Save when you are finished assigning permissions.
Adding Multiple Users

From the User Administration window, you can upload a file containing multiple user profiles to DRC. The file must meet certain requirements. For help, or more information about this process, click the File Layout and Sample File links at the top of the Upload Multiple Users tab.

1. To create and upload a users file, select User Administration from the Manage Users menu to display the User Administration page and select the Upload Multiple Users tab.

2. For help with or more information about the upload process, click the File Layout and Sample File links in the light blue bar at the top of the Upload Multiple Users tab.

3. Select the appropriate test administration and click Browse... to select the file to upload.

4. Click Upload when you are ready.

Note: If there are errors in the file, a message displays containing details about the errors. You must resolve the errors and repeat Steps 3 and 4.
Student Management Menu
Introduction

From the Manage Students option of the Student Management menu, eDIRECT users can search for students, view the test sessions for which a student is currently enrolled, view the status of the session, and upload student records.

1. To display the Manage Students page, open the All Applications menu bar, click Student Management, and click Manage Students from the Student Management menu.

2. To filter the display based on whether students have been assigned to a test session, use the Session Assignment drop-down menu. You can select one of the following values:

<table>
<thead>
<tr>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Online</td>
<td>Displays the students that have been assigned to a test session.</td>
</tr>
<tr>
<td>None</td>
<td>Displays the students that have not been assigned to a test session.</td>
</tr>
<tr>
<td>Blank</td>
<td>Leaving the field blank displays all students, both assigned and unassigned (the default value).</td>
</tr>
</tbody>
</table>

3. To search for one or more student records, use the various drop-down menus and fields to enter search criteria and click Find Students.

```
Adding a Student to eDIRECT

There are two ways to add students to eDIRECT one at a time. The method you use depends on whether you have already set up a test session. If you do not have a test session set up, use the Add Student window to add a student (see below). If you have a test session set up, see “Adding Students to a Test Session” on page 52.

1. To add a student to eDIRECT, open the All Applications menu bar, click Student Management, and click Manage Students from the Student Management menu to display the Manage Students page.

2. Select an administration, district and school.

3. Click Add Student at the bottom of the page to display the Add Student page.
4. On the Add Student page, enter the necessary information using the Student Detail, Accommodations, Demographics, and Testing Codes tabs to add the student.

5. Click **Save** to save your results, **Save & Add Another** to save your results and add another student, or **Cancel** to cancel the process without saving your changes.
**Uploading Multiple Students to eDIRECT**

To upload multiple student records at once, you can upload a file containing student information to eDIRECT. The file must be in the comma-separated value (.csv) format used by Microsoft Excel and the fields in the file must be in specific columns. After a file is uploaded successfully, the students will automatically be added to test sessions at their designated school and grade level.

1. Open the All Applications menu bar, click **Student Management**, and click **Manage Students** from the Student Management menu to display the Manage Students page. Select the **Upload Multiple Students** tab.

2. The Upload Multiple Students tab contains links to both a sample PDF file that contains instructions and a sample .csv file that you can use to create the actual file.

   Click the **File Layout** link to display the Nebraska Multiple Student Upload Pre-ID File Layout.pdf file.

   This PDF file displays the required layout of the .csv file you will upload to DRC with rules, instructions, and examples describing how to create and format the .csv file.
3. Click the **Sample File** link to download or display the NESampleStudentFile.csv file. This file is only a sample of the type of file you will upload to DRC. Depending on the browser you are using, a dialog box may appear for you to use to open or download the file.

4. Download and use the NESampleStudentFile.csv file as a template to create, rename, and save as a different student file to upload.
   
   **Note:** Be sure to keep the header column rows in the file that you upload.
5. After you have created the new student file, select an Administration, click **Browse**... to locate the file, select the file, and click **Open** to display it in the File field of the Upload Multiple Students tab.

6. Click **Upload**. A message displays indicating the file has been transferred and is being checked for errors. After the file has been validated, you can review its status. If the file contains errors, you must correct them and repeat Steps 5 and 6.
**Editing a Student’s Information**

You can perform the following tasks from the Edit Student window:

- Modify a student’s detail information (see below).
  
  **Note:** Updating a student’s information in eDIRECT does not update the NSSRS information for that student.

- Mark a student’s accommodations (see “Editing a Student’s Information-Accommodations” on page 39).

- Modify a student’s demographic information (see “Editing a Student’s Information-Demographics” on page 40).
  
  **Note:** The 2018–2019 NSCAS Alternate does not use student demographics.

- Mark a student’s testing codes (see “Editing a Student’s Information-Testing Codes” on page 41).

- View the test sessions for which the student is enrolled (see “Viewing a Student’s Test Session Information” on page 42).

---

1. To view or edit a student’s detail information, click the Manage Students link from the Student Management menu and select your search criteria.
2. Click Find Students.
3. Click the View/Edit icon ( ) in the Action column for the student whose information you want to edit.
4. In the Edit Student window, edit the information in the Student Detail tab.
   
   **Note:** The information in the District and School fields cannot be edited.
5. Click Save to save your changes or Cancel to cancel them.
**Editing a Student's Information—Accommodations**

Administrators must indicate any of the accessibility accommodations a student uses for this administration. For more information on accommodations, refer to the *NSCAS Accessibility Manual* posted on the Assessment page of the NDE website.

1. To view or edit a student’s accommodation information, click **Manage Students** from the Student Management menu and select your search criteria.

2. Click **Find Students**.

3. Click the **View/Edit** icon ( Kỳ ) in the Action column for the student whose information you want to edit.

4. In the Edit Student window, edit the information in the **Accommodations** tab.

5. Click **Save** to save your changes or **Cancel** to cancel them.

6. After saving your changes, review the Update Report for changes to online accommodations. The report may indicate that test tickets need to be reprinted.
Editing a Student’s Information—Demographics

The 2018–2019 NSCAS Alternate does not use student demographics.
To view or edit a student’s test code information, click **Manage Students** from the Student Management menu and select your search criteria.

2. Click **Find Students**.

3. Click the **View/Edit** icon in the Action column for the student whose information you want to edit.

4. In the Edit Student window, edit the information in the **Testing Codes** tab.
   
   **Note:** A student must be placed into a test session before marking a testing code for the content area.

5. Click **Save** to save your changes or **Cancel** to cancel them.
Viewing a Student’s Test Session Information

1. To view a student's Test Sessions, click Manage Students from the Student Management menu and select your search criteria.

2. Click Find Students.

3. From the Test Sessions tab, click the Edit/Print Ticket Status icon ( ) in the Action column for the student whose information you want to view. The Testing Status window displays.

4. From the Testing Status window you can print one or more student test tickets in the test session.
Accessing the Student Status Dashboard

This Student Status Dashboard (or Dashboard) allows you to display student testing status by school and administration. You can filter student test data on the Dashboard by testing status, grade, content area, and assessment (or any combination of these). You need the Test Setup–View Student Status permission in eDIRECT to use the Dashboard.

1. Open the All Applications menu bar, and select Student Management.

2. Click Student Status Dashboard to display the dashboard.
Selecting a School in the Dashboard

Use the Site Selection search box to search for a school and display its testing status data in the Dashboard. You must enter at least three characters of a school name or school code in the search box to display matches.

Note: You cannot search by administration, only by school name or school code.

1. Enter three or more characters of a school name or code. In the list of matches, direct text matches display in bold.

If there are no results for the selected school, a message displays.

2. From the list of search results, click a school and administration to display the testing results in the Dashboard.
Using the Dashboard

By default, the Dashboard displays graphs for Status, Grade, Content Area, and Assessment. A grid of student information displays below the graphs. As shown below, you can click to toggle the information between graph and table format. In addition, you can hover the mouse cursor over a graph or part of a graph to display numerical values for testing status.

For the **Status** graph, hover the cursor over a portion to display the number of students in that category.

In the example below, hovering over the Not Started (red) portion of the graph displays the number of students who have not started testing.  

**Note:** Students in a Locked status are counted as In Progress.

For the **Grade, Content Area, and Assessment** graphs, hover the cursor over a specific area of the graph to see the testing status for that specific area.

In the example below, hovering the cursor over the Science portion of the Content Area graph displays the current numbers for the various testing statuses—Not Started, In Progress, or Completed for Science.
Using the Dashboard (cont.)

Below the graphs, a grid of students for the selected school displays. You can sort the student grid by column heads and export the grid to a spreadsheet (.csv) file.

Click a column head to sort the Student Search Results grid by the column data. An arrow displays on the selected sort column. The direction of the arrow—up (▲) or down(▼)—indicates whether the column data is being sorted in ascending (up arrow) or descending (down arrow) order. The sort is either numeric or alphabetic, based on the type of data in the column (see the table below).

<table>
<thead>
<tr>
<th>Column Head</th>
<th>Ascending or Descending Sort Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Last Name/First Name</td>
<td>Alphabetically by last name/first name</td>
</tr>
<tr>
<td>Grade</td>
<td>Numerically from grade 3 to grade 12 and vice-versa</td>
</tr>

</table>

Click Export to CSV to export the student grid to a spreadsheet file.

As you scroll down, more student data displays (if applicable) and a message displays indicating the number of students shown out of the total number of students.

Click the scroll to top icon (↑) to jump to the top of the Dashboard.
Filtering the Dashboard

Creating Dashboard filters is dynamic—when you click a specific graph area, the Dashboard automatically creates a filter and updates the Dashboard data based on the filter. For example, if you click the Grade 6 area of the Grade graph, the Dashboard filters and re-displays using data for Grade 6 only. You can continue to filter the display using different filters. The current filters display at the top of the Dashboard and you can remove one or more filters from the display. Each time you add or remove a filter, the Dashboard is updated based on the active filters.

1. Click the Grade 6 area of the Grade graph.

2. The Dashboard display updates based on the filter, which displays in the Filters section of the Dashboard. Now, the Grade graph displays grade 6 only.
Filtering the Dashboard (cont.)

3. You can add other filters. For example, click the Mathematics area of the Content graph. The dashboard re-displays, filtered for Grade 6, Mathematics. You can continue to add filters.

4. Click X to close a filter. When all filters are closed, the Dashboard returns to the default display—all statuses display in all graphs, unfiltered.
Viewing a Student’s Testing Status

From the Student Status page, you can view the online testing status of one or more students for a specific district and school. This page displays the following information:

- The student’s name and grade
- The content area of the test
- The student’s test session status (see below)

<table>
<thead>
<tr>
<th>Status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not Started</td>
<td>The student has not started the test.</td>
</tr>
<tr>
<td>In Progress</td>
<td>The student has started the test, but has not finished taking the test.</td>
</tr>
<tr>
<td>Completed</td>
<td>The student has finished the test. The start time, end time, and length (duration) of the test session are also displayed for all Completed statuses.</td>
</tr>
</tbody>
</table>

1. Select Student Status from the Student Management menu.

2. On the Student Status page, select your search criteria. Administration, district, and school are required; grade and content area are optional.

3. Click Find Students to display the student information that matches your criteria.

You can export the results that display as either a spreadsheet file (Excel) or a PDF file.

The Status column displays the online testing status.
Test Management Menu
Introduction

From the Test Sessions window, you can view all of the test sessions for a specific district or school. The window displays the status of the session—Not Started, In Progress, Completed (see below).

<table>
<thead>
<tr>
<th>Status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not Started</td>
<td>The test session has not started—no student in the session has started the test.</td>
</tr>
<tr>
<td>In Progress</td>
<td>The test session is in progress.</td>
</tr>
<tr>
<td>Completed</td>
<td>The test session is finished—all of the students in the session have completed the test. The start time, end time, and length of the test session are also displayed.</td>
</tr>
</tbody>
</table>

1. To display the Test Sessions page, open the All Applications menu bar and select Test Management from the Test Management menu. When the Test Management menu appears, click Manage Test Sessions.

2. To view the status of test sessions, enter your search criteria, and click Show Sessions. The Session Detail window appears and the status of each test session displays in the Status column.
Adding Students to a Test Session

All pre-coded students have been assigned to existing test sessions. You must create a test session for any school and grade that did not have pre-coded students and then add students to the new test session (see the topics “Adding a Student to eDIRECT” on page 33 and “Creating a Test Session” on page 56).

1. To add one or more new students to a test session, select a test session for the student’s grade level and click the View/Edit icon.

2. When the Edit Test Session window displays, click New Student.
Adding Students to a Test Session (cont.)

3. When the Add Student window displays, enter the student’s information into the fields on the Student Detail tab.

4. Click Save. The student you added is automatically placed in the Students in Session list for the test session.

Note: Remember to click Save again when the Edit Test Session window re-displays.
Adding Students to a Test Session (cont.)

You also must add the student to the other tests sessions for any other content areas for which they will test.

1. To add one or more new students to a test session, select a test session for the student’s grade level and click the View/Edit icon ( ).

2. When the Edit Test Session window displays, click Find Students.
Adding Students to a Test Session (cont.)

3. Click on the student’s name to highlight it and click the **Add Selected** icon to move the student to the Students in Session column.

4. Click **Save**. After the student is added, you can print a test ticket for the student.
Creating a Test Session

You can create a new test session and add students to it.

1. To add a test session, open the All Applications menu bar and click the Manage Test Sessions option from the Test Management menu to display the Test Sessions page.

2. Select a district and school (required to add a test session and click the Add Session button at the bottom of the page.)
Creating a Test Session (cont.)

3. The Add Test Session window appears. Enter the required information (indicated by an asterisk [*] next to the field).

4. Enter any other student search criteria.

5. Click Find Students.

6. Select a student from the Available Students list.

   **Note:** To select multiple students in sequence, press the Shift key while you select them. To select multiple students that are not in sequence, press the Ctrl key while you select them.

7. Use the Add Selected ( ), Remove Selected ( ), Add All ( ), and Remove All ( ) icons with the Available Students and Students in Session lists to select one or more students to remove from or add to the test session.

8. Click Save or Save & Add Another to add another session.
Exporting a Test Session

You can export the details of a test session as an Excel file (.xls) to save, view, edit, or print in a spreadsheet.

1. To export a test session, click Manage Test Sessions from the Test Management menu and select your search criteria on the Test Sessions page.

2. Click Show Sessions to display the Session Detail window.

3. Select a test session using the checkmark in the Select column and click Export to Excel. The test session details are exported to an Excel file (.xls) that you can save, view, edit, or print.
**Viewing and Exporting Test Session Status Details**

The test session status display provides each student’s test ticket status, the time the student started the test, and the time the student completed the test. You can use this information to verify that all of the students in a session have completed their tests.

1. To view or export test session details, click **Manage Test Sessions** from the Test Management menu and select your search criteria on the Test Sessions page.

2. Click **Show Sessions** to display the Session Detail window.
Viewing and Exporting Test Session Status Details (cont.)

To export test session status details to a spreadsheet file (.xls) that you can save, view, edit, or print, check the checkbox in the Select column next to each test session status you want to export and click **Export to Excel**.

To view or print test session details, click the **Edit/Print Ticket Status** icon in the Action column for the test session details you want. The details for the test session you selected display in the Testing Status window. You can view or print the test session details from this window.
You can print test tickets for the students in a test session. You can print all of the tickets for all of the students in a session, or you can select specific students and print their tickets. For the NSCAS Alternate assessment, the same student test ticket will be used to access all subjects tested at the student’s grade.
Printing Test Tickets and Rosters (cont.)

1. To print test tickets for the students in a test session, Open the All Applications menu bar and select Test Management.

2. Click Manage Test Sessions from the Test Management menu and select your search criteria from the Test Sessions page that appears.

3. Click Show Sessions. From the Sessions tab you can print all of the tickets in the test session or selected tickets.
Printing Test Tickets and Rosters (cont.)

To print all of the tickets for the test, session, click the Print All icon ( ) in the Action column for the test session you want to print tickets for. A Portable Document Format (.pdf) version of the Student Test Session Ticket displays that you can view, save, and print.

To print selected test tickets, click the Edit/Print Ticket Status icon ( ) in the Action column for the test session you want. In the Testing Status window, select one or more students by clicking the checkbox next to their name in the Select column. Then, click Print Selected.

You can search for students on the Testing Status window by Last Name, Status, or Status by Module.

Enter your search criteria or select from the drop-down menus. Click Filter to display the results or Clear to clear your selections.
**Displaying a Test Session Status Summary**

The Test Session Status Summary provides a summary report of the test sessions you specified from the Test Sessions window.

1. To display a summary report of test sessions, open the **All Applications** menu bar and select **Test Management**.

2. Click **Manage Test Sessions** from the Test Management menu and select your search criteria from the Test Sessions page that appears.

3. Click **Show Sessions**.
4. Click the **Status Summary** tab.

The Status Summary report displays the test sessions that meet the criteria you specified in step 2.
A student’s test ticket must be unlocked if a Proctor or Test Administrator ended the test by using the End Test function in INSIGHT and the student’s test is in a Completed status. If the student’s test needs to be accessed again, the student’s test ticket must be unlocked. After the ticket is unlocked, you can use the log-in information from the original test ticket to access the test.

**Note:** The District Assessment Contact must contact a DRC Nebraska Customer Service representative at (866) 342-6280 if there is a need to unlock a completed test.
**Introduction**

From the Report Delivery menu, eDIRECT users can access and view online testing statistics, status reports, online results, and reports.

Open the All Applications menu bar and click Report Delivery to display the Report Delivery menu.

Select Online Testing Statistics from the Report Delivery menu to display testing statistics.

Select Status Reports from the Report Delivery menu to display status reports that track testing activity for a test administration in a particular district and school.

Select View Reports from the Report Delivery menu to view, download, or print district-level reports.
Online Testing Statistics

eDIRECT users can display testing statistics for the entire test period up to the previous day, or statistics for the previous day, sorted by student and grade, or by district and date.

1. To display testing statistics for online testing, select Online Testing Statistics from the Report Delivery menu to display the Online Testing Statistics page.

2. Select an administration from the drop-down menu.

Select Cumulative to view reports for the entire testing period up to the previous day. Select Yesterday to view reports for the previous day.

Select Student/Grade to view reports sorted by student and grade. Select District/Date to view reports sorted by district and date.

To export a report in comma-separated values (.csv) format to download into a spreadsheet, select the report and click Export.
**Status Reports**

eDIRECT users can use status reports to track testing activity for a test administration in a particular district and school. During testing, the status reports are updated daily at the end of each testing day.

**Note:** The Cumulative Student Status Report is updated in real time.

1. To display a status report, select **Status Reports** from the Report Delivery menu.

2. Select an administration and district (and school—optional) from the drop-down menus.

3. When the Status Reports page re-appears, click on the Action icon next to the report you want to display.
View Reports

eDIRECT users can view, download, or print reports at the district level.

1. To view or print reports, select View Reports from the Report Delivery menu to display the View Reports page.

2. Specify an administration, district, school, and report from the drop-down menus and click Show Reports to view, save, or print results for the students selected, or Download Reports to download a report in .pdf or .csv format.
