Targeted Improvement Plan (TIP) Reminder

To the creatures of habit who were in a panic thinking the Targeted Improvement Plans were due this week, we wanted to provide a reminder and to put minds at ease. TIPs are due December 1, 2018. A [Technical Assistance Document](#) has been posted on ILCD under the Resource tab. The document describes the changes made to ILCD, gives examples of information needed for the “Implementing the Plan” component, and provides a reminder about the new December 1 due date.

DHHS Update

All schools have received their December through February 2018 NEBMAC payment. It is labeled DF18 MAC. Please note that the payment is 3% less than what is shown in Fairbanks as there is a 3% administration fee that is taken out. Please make sure that you complete your upload of the monthly snapshots. DHHS wishes a great start to the new school year for all Nebraska Public Schools!

Have a fantastic weekend and thanks for your leadership.
