

Civic Ready

THE POWER OF LANGUAGES

to make you college,
career, and civic ready

WORLD LANGUAGE WEEK
MARCH 31-APRIL 6, 2019

Using other languages means having access to international materials that show how others view issues and make decisions.

Learning a second language requires practice in negotiating complicated social situations, listening for understanding, and choosing the best message.

The connections made in world language learning give a better sense of who we are in all of our roles and how others may see us.

Created by World Language Program Specialist,
Nebraska Department of Education in honor of World Language
Week 2019. May be reprinted for educational use.
