APPENDIX B – Exempt School/Home School Process and Coding for Enrollment

Exempt School/Home School Process and Coding for Enrollment

Parent notified the school district they are filing for Exempt/Home School.

School district should check the Exempt Schools – School District Report (found in the NDE Portal within the Data Collections tab) to review the application submitted by the parent.

IF Started/Working:

This status indicates the parents or legal guardians have created an account to file through the Nebraska Exempt School online system, but have not submitted to NDE. The student should remain enrolled and if the student is not attending school, the student should be reported as absent.

IF Submitted/Pending NDE Review:

The student should remain in enrollment until the Exempt Schools – School District Report (found in the NDE Portal within the Data Collections tab) shows the student with a status of Submitted. The student's enrollment code reported is 205 (not enrolled eligible to return), using the date the Exempt Schools – School District Report shows the student as having a "Submitted" filing. The district will not continue to report the student absent.

IF Submitted/Under NDE Review:

NDE is awaiting further information from the parents/legal guardians before the review can be completed. The student's enrollment code reported is 205 (not enrolled eligible to return), using the date the Exempt Schools – School District Report (found in the NDE Portal within the Data Collections tab) shows the student as having a "Submitted" filing. See Exempt Date or Filing is Incomplete below.

Exempt Date:

NDE Exempt School Staff will review and process the filing; once complete, the status of the submission will show an Exempt Date next to the student's date of birth. As of the Exempt Date, the student can be reported as a 201 (transfer out).

Filing was Incomplete. School has been notified:

IF a filing Submitted/Under NDE Review and subsequently the parents/legal guardians have not responded to NDE's requests for information, the resident district Superintendent will be notified of noncompliance (as per 92 NAC 13-005). On the Exempt Schools – School District Report (found in the NDE Portal within the Data Collections tab), the student will show as deactivated with the notation "Filing is incomplete. School has been notified." Add the student back into the district's student information system for follow-up related to truancy as per the district policy. Showing the student with enrollment code 205 (Not Enrolled Eligible to Return).

Canceled:

Prior to NDE's processing, the submission has been canceled due to various reasons; e.g. duplicate submission (filed online and by paper), parents changed their mind, etc. Check the Exempt Schools – School District Report (found in the NDE Portal within the Data Collections tab) and if there isn't an active application, the student should remain enrolled and if the student is not attending school, the student should be reported as absent.
