ADDITIONAL OBSERVATIONS:

Findings from five-day reconciliation and attendance errors:

Signature of Site Representative
5-Day Reconciliation (complete attached worksheet - copy additional pages as needed).

A reconciliation of meal counts for five consecutive days must be included as a part of each facility review conducted by a sponsor. Five-day reconciliation is completed on 10 percent of the center’s enrolled participants, with a minimum of five participants being included in the reconciliation.

1. Gather meal counts, current enrollment forms and attendance records.
2. Choose five consecutive operating days from the meal count records.
3. Choose a 10 percent sample of enrolled participants (or at least five participants) and record each participant’s full name and usual days/times and meals from the enrollment form.
4. Evaluate the center’s enrollment records to ensure that they are current and accurate.
   a. Enrollment records include
      - Participant’s name
      - Date of birth
      - Date care began
      - Signature of adult household member
      - Usual times in care and days in care (child care centers only; optional if parent check child in and out)
      - Usual meals served while in care (child care centers only; optional if parent checks child in and out).
   b. Enrollment records must be complete and signed and dated by the adult household member within the past 12 months (child care centers only; one time enrollment for adult care centers)
5. Check to see that time in/out attendance records are on file for every participant.
6. Record all meals claimed for the sample during the identified five-day time period.
7. Compare usual days/times in care and attendance records with the meals claimed for reimbursement for your participant sample. Note any discrepancies.
8. If meal counts and attendance cannot be reconciled, the regulations require the reviewer to determine whether the establishment of an overclaim is necessary.

Additional edit checks if discrepancies are observed: (REF: MEMO CACFP 10-2018: Conducting Five-Day Reconciliation)

- Determine number of children in attendance during the five-day period.
- Compare each day’s total meal counts to daily attendance to ensure meal counts do not exceed number in attendance for each day.
- Compare total enrollment to daily attendance to ensure attendance did not exceed enrollment for any day in the five-day period (in facilities where enrollment forms are required). If attendance does exceed enrollment, for any day or any shift (if shift care is provided), the reviewer must determine the source of the error (e.g. inaccurate attendance records, missing enrollment forms) before a five-day reconciliation can be completed.
- Compare the center’s total meal counts to its licensed capacity. Meal counts for any day or any shift (if shift care is provided) should never exceed licensed capacity.
