Nebraska Department of Education Monitoring and Technical Assistance Manual

For Carl D. Perkins Career and Technical Education Act of 2006

Career Education is one of the primary systems through which youth and adults are prepared to enter a competitive workforce and continue in lifelong learning. The federal and state investment of financial resources should be used to improve career and technical education programs that will provide opportunities for all students to have access to and benefit from quality educational experiences.

In order to qualify for allocations of the Carl D. Perkins Career and Technical Education Act of 2006 funds, eligible recipients were required to prepare a local application. The Act envisions that students will achieve challenging academic as well as career and technical skill proficiencies, be prepared for postsecondary education and further learning, and attain the skills needed to pursue high-skill, high-wage careers, and not just entry-level jobs. Students in career and technical education should be taught to the same challenging academic standards as other students. The performance measures, which are a part of the Annual Report, address this priority for accountability.

This document has been prepared to assist the staff of the Nebraska Department of Education in monitoring approved projects of the Carl D. Perkins Career and Technical Education Act.

The monitoring process, which should occur twice within a five-year period, has the following purposes:

- 1. Determine compliance with the assurances as listed in the local application.
- 2. Evaluate progress toward the goals identified in the local application.
- 3. Verify that programs that have been approved as meeting program standards are in compliance.
- 4. Review progress toward meeting core indicators.
- 5. Provide technical assistance for meeting the goals identified in the local application.

A review of the impact of Perkins funds on Career Technical Education (Completed by the Postsecondary Institution)

Where applicable, citing a web-link is the preferred and acceptable evidence of compliance rather than printing paper.

Highlight the successes achieved during the past three years through the use of Perkins funds to improve career and technical education:

Highlight the challenges encountered through the implementation of the local plan during the past three years to improve career and technical education:

Review of the Local Application and Procedures

This review is designed to be a self-assessment of quality and a documentation of meeting the assurances requirements associated with accepting funds from the Perkins Career and Technical Education Act of 2006.

Please check all of the boxes that are documented for each Quality Indicator/Assurance. With the exception of this page, it is not required to check all statements in each area.

QUALITY INDICATOR/ASSURANCE: Use of Funds—Items 1 and 2 must be implemented

Postsecondary institutions receiving Perkins funds will provide fiscal control/accounting procedures necessary to ensure proper expenditure of and accounting for Federal funds expended for career technical education. The institution must be able to demonstrate fiscal control and fund accounting procedures that ensure proper expenditure of funds are in place and utilized. (*Federal Requirement*)

QUALITY INDICATOR/ASSURANCE: Coordination with Other Programs

Career and technical education programs will be jointly planned and coordinated with programs conducted under the Workforce Investment Act, Adult Education, Title 1, IDEA, the Rehabilitation Act, and with apprenticeship programs to ensure non-duplication of other federal programs. (*To avoid duplication, consideration has been given to other occupational training programs being conducted by other agencies in the area.*) (Assurance 2)

The local application will be made available for review and comment by interested parties including the Local Workforce Development Boards authorized under the Workforce Investment Act (PL105-220). (Assurance 3)

| Evidence | | | Check (✓) if Implemented and Evidence on File | | |

QUALITY INDICATOR/ASSURANCE: Local Education Agency Comparability Assurance

State and local funds will be used in the postsecondary institution receiving funds to provide services which, taken as a whole, are at least comparable to services being provided at campuses/locations in the institution not receiving such funds. A postsecondary institution will have met the comparability requirement if it has established and implemented the following written procedures:

A. An institution wide salary schedule; a policy to ensure equivalence among instructors, administrators, and auxiliary personnel; and a policy to ensure equivalence among campuses/locations in instructional supplies; or

B. Other measures such as student/instructional staff ratios and student/instructional staff salary ratios. (Assurance 28)
