  - Appendix G: Nebraska’s GOLD Training Pathways: 55
Results Matter in Nebraska is a child, program, and family outcomes measurement system designed and implemented to improve programs and supports for all young children served by districts and their community partners, which may include Head Start and other community early childhood programs.

Each district and ESU is required to participate in the NDE Results Matter child outcomes system for all children birth to kindergarten entrance age served in any early childhood program. This technical assistance document is intended for use by teachers, practitioners, and program administrators who are responsible for measuring and reporting child, program and family outcomes. Unless otherwise noted, these requirements apply to all children birth to kindergarten entrance age enrolled in any public school district (hereafter referred to as district) or Educational Service Unit (ESU) early childhood program and/or service.

Districts and ESUs are expected to serve children within inclusive classrooms that represent a full range of abilities and disabilities and the social, linguistic, and economic diversity of families within the community.

Results Matter is responsive to Nebraska Department of Education (NDE) Rule 11–Regulations for the Approval of Prekindergarten Programs Established by School Boards or Educational Service Units and for the Issuance of Early Childhood Education Grant; Rule 51–Regulations and Standards for Special Education Programs; Rule 52–Regulations and Standards for the Provision of Early Intervention Services and the federal requirements of the Individuals with Disabilities Education Act (IDEA) Part C (birth to age three) and Part B-619 (ages three to five).

MEASURING PROGRESS

Results Matter measures child progress and program quality to accomplish these purposes:

- improve experiences, learning, development, and lives of young children birth to age five and their families;
- inform curriculum and program practices;
- demonstrate program effectiveness;
- guide the development of local and state policies and procedures; and,
- provide data to demonstrate results.

Progress for child outcomes is measured by developmental domain and by functional outcome.
The three outcomes are:

1. positive social skills and relationships;
2. knowledge and problem solving; and,
3. self-help and initiative.

Progress for program quality is measured by the results of the Environment Rating Scale (ERS) and Classroom Assessment Scoring System (CLASS). The rating scales measure how the classroom and staff support children’s physical, cognitive, social-emotional, and language and literacy development.
Progress for family outcomes is measured by the percent of families who indicate through a survey that participation has positively influenced their involvement in the early childhood program and helped improve outcomes for their children.

Refer to the Matrix in Appendix A for more information on measuring progress in child, program and family outcomes in early childhood programs.
PROGRAM OUTCOMES

PURPOSE

The purpose of measuring program outcomes is to ensure that young children participate in a high quality early childhood program that contributes to positive cognitive, social, and health outcomes.

PROGRAM QUALITY MEASURES

Results Matter in Nebraska calls for program outcome assessments that...

- are reliable and valid;
- measure multiple dimensions of the environment;
- are research based and consistently show a relationship between program quality and child outcomes;
- reflect evidence-based practices;
- are inclusive of culture, race and ability;
- inform decisions for continuous program quality improvement; and,
- support teachers, children and families.

The most common approach to measuring program quality is through the use of an observation tool. Research has highlighted the importance of measuring all aspects of program quality, and of equal importance is assurance that the measurement tools are used consistently by all observers. NDE uses the Environment Rating Scales (ERS), which provides a broad representation of quality and the Classroom Assessment Scoring System (CLASS), which focuses specifically on classroom practices.

Each district and ESU is required to participate in the Results Matter program outcomes system for all children **birth to kindergarten entrance age** using one or more of the following environment rating scales:

- Early Childhood Environment Rating Scale-Third Edition (ECERS-3)
- Infant Toddler Environment Rating Scale-Third Edition (ITERS-3)
- Classroom Assessment Scoring System-PreK (CLASS PreK)
- Classroom Assessment Scoring System-Toddler (CLASS Toddler)
- Classroom Assessment Scoring System-Infant (CLASS Infant)
- Home Visit Rating Scales (HoVRS)
- Family Child Care Environmental Rating Scale — Revised Edition (FCCERS-R)

NDE Office of Early Childhood defines a quality standard score for ITERS-3 and ECERS-3 as 5 in each subscale, and a quality standard score for CLASS has not yet been defined.

**All district and ESU preschool center-based programs are expected to have child choice at least one-third (1/3) of the scheduled program time.**
**INFANT AND TODDLER**

**Center-Based (Sixpence):** A Munroe Meyer Institute evaluator will complete the ITERS-3 for every new program and debrief with the program staff. Sixpence criteria requires an overall score of 5. Technical assistance will be provided for any subscale not receiving a score of 5. Once a classroom meets the Sixpence criteria for the ITERS-3, the classroom will be assessed using the CLASS. If a classroom has met the ITERS-3 criteria, but then gets a new lead teacher, and/or there is a significant change to the physical space or location of the room, an ITERS-3 will be completed instead of the CLASS. Sixpence will pay associated costs.

- **Child Care Partnership (Sixpence):** Programs will have ERS observations annually. Sixpence will pay associated costs.

**Center-Based (not Sixpence):** An observer trained to NDE approval standards will complete an observation of the classroom(s) as assigned by NDE Office of Early Childhood using the ITERS-3, CLASS-Infant or CLASS-Toddler. Districts are required to select either the ITERS-3, CLASS-Infant or CLASS-Toddler for an observation. NDE will pay associated costs.

**Home-Based (Sixpence):** The Home Visit Rating Scales (HoVRS) is an observational measure that evaluates the effectiveness of the home visit, e.g., responsiveness to the family. All home visitors from each program will have a home visit videotaped for evaluation. The program will make a 30 minute video of a home visit session that includes planning with the parent and other typical home visit activities and submit to the program evaluator. Sixpence will pay associated costs.

**PRESCHOOL**

An observer trained to NDE approval standards will complete an observation of the classroom(s) as assigned by NDE Office of Early Childhood using the ECERS-3 or CLASS-PreK. Districts with established programs not funded with an early childhood education grant may be observed using either the ECERS-3 or CLASS-PreK.

Districts and ESUs starting programs not funded with an early childhood education grant will have an onsite observation using ECERS-3 in year 1 of program operation.

**District classrooms receiving grant funds, or districts with a priority school designation will have an onsite observation using ECERS-3. These classrooms will have onsite observations bi-annually until they meet the quality standard score or until they no longer receive grant funding or hold the priority school designation.**

NDE will pay the costs associated with observations.

**CONTINUOUS QUALITY IMPROVEMENT PLAN**

Districts that receive an onsite observation must complete a Continuous Quality Improvement Plan based on the results of the observation.

Sixpence requires a Continuous Quality Improvement Plan for districts not meeting the quality standard score.
**TRAINING**

**ERS:** NDE will schedule and conduct training that provides an Introduction and Practice in the use of the ERS at locations throughout the state. The cost to attend training is the responsibility of the district or ESU.

The schedule for training and registration forms can be found on the NDE Early Childhood Training Calendar website at: ecrecords.education.ne.gov/Calendar.aspx

**CLASS:** NDE will schedule and conduct training that provides an Introduction to the CLASS at locations throughout the state. The cost to attend training is the responsibility of the district or ESU. Training for Observation (Reliability) will also be available.

The schedule for training and registration forms can be found on the NDE Early Childhood Training Calendar website at: ecrecords.education.ne.gov/Calendar.aspx

The Introduction is also available online at: store.teachstone.com/introduction-to-the-class-tool-online-course
PROCEDURES FOR PROGRAM QUALITY ASSESSMENT

The requirements for program quality assessment are intended for use by teachers, practitioners, and program administrators who are responsible for measuring and reporting child progress. Unless otherwise noted, the requirements apply to all district and ESU center-based programs serving children birth to kindergarten entrance.

An early childhood program is defined as any prekindergarten part-day or full-day program or in-home family support program with a stated purpose of promoting social, emotional, intellectual, language, physical, and aesthetic development and learning for children from birth to kindergarten entrance age and family development and support. This includes all districts and ESUs who serve children in one or more of the following programs:

• Early Childhood Education Grant Programs – Ages 3 to 5
• Early Childhood Education Endowment Programs – Ages Birth to 3 (Sixpence)
• District and ESU early childhood programs
• Early Childhood Special Education
• Early Development Network (when children are enrolled in a district or ESU center-based program)
• Any other defined program

ONSITE OBSERVATIONS

1. When will the observations take place?
   Fall observations will be scheduled starting mid-September and will be completed by mid-November. Spring observations will be scheduled starting mid-February and will be completed by mid-April. The observer assigned to the program will contact the teacher directly to schedule the observation. Refer to Appendix F, Early Childhood Calendar.

2. How will districts and ESUs be informed if they are selected for an onsite observation?
   The classroom teacher and the district identified Early Childhood contact will receive a notification via email from NDE.

3. Who are the observers?
   • Observers are persons across the state with an early childhood background who have achieved Nebraska Approval. The observers are currently working in or with early childhood programs
   • Observers re-establish Nebraska Approval every six months, or every ten observations, whichever comes first.

4. How should the program prepare for the observation?
   • Districts should assure that classroom teachers and other appropriate staff have a basic understanding of the observation criteria and scoring process. Training is available at sites across the state.
   • The purpose of the observation is to see what a “typical” program day in the classroom looks like. Teachers should not plan special activities or a field trip for the day of the observation.

5. What happens during the observation?
   • The observer arrives at the scheduled time and observes for a minimum of 3 hours (ERS) or 2 hours (CLASS).
   • Observers are not part of the classroom supervision and do not interact with children or staff.
6. **What happens following the observation?**

- The observer completes the scoring.
- The observer writes a summary report.
- The summary report and original score sheets are returned to NDE or Sixpence.
- Summary reports and score sheets are reviewed by NDE Office of Early Childhood and/or Sixpence staff.
- NDE and/or Sixpence staff will share information with the program.
  - NDE staff will make every effort to provide preliminary feedback to the program within 3 business days of the observation. A visit will be scheduled to make time for an in-depth conversation.
  - Sixpence staff will schedule with programs individually.
PURPOSE

The purpose of measuring family outcomes is to gain feedback and family perceptions about how the child’s early childhood program is meeting child and family needs.

IDEA PART C – AGES BIRTH TO 3

The federal Individuals with Disabilities Education Act (IDEA) requires all states to report outcomes of families of infants and toddlers (birth to age 3) with IFSPs. An annual statewide family survey is used to learn if participating in Part C early intervention services for infants and toddlers have helped the family:

- Know their rights;
- Effectively communicate their children’s needs; and,
- Help their children develop and learn.

Based on the data and analysis of responses received, the Part C co-lead agencies — NDE and the Nebraska Department of Health and Human Services (DHHS) — collaborate with services coordination contractors, Planning Region Teams and districts to use the data to inform the local early intervention process and improve family satisfaction with early intervention service delivery.

IDEA PART B – AGES 3 TO 5

Parents of children ages 3-5 with IEPs complete a parent survey for parents of children and youth ages 3-21. This special education survey is designed to determine the extent to which schools are facilitating parent engagement, and to design strategies to improve parent engagement. Special education parent surveys are part of a 5-year sampling cycle conducted by school districts.

EARLY CHILDHOOD EDUCATION ENDOWMENT PROGRAM–AGES BIRTH TO 3 (SIXPENCE)

The Keys to Interactive Parenting Scale (KIPS), which measures parent-child interaction, is completed each fall and spring for parent engagement programs. Information is used by the parent-educator to support parent-child interactions.

The FRIENDS Protective Factor Survey (PFS) results are designed to help programs measure change in protective factors and identify areas where family support workers can focus on increasing individual family protective factors. PFS analyzes four factors:

- Availability of social support;
- Family functioning;
- Access to concrete supports; and,
- The extent the parent is nurturing and attached with their child.

EARLY CHILDHOOD EDUCATION PROGRAMS – AGES BIRTH TO KINDERGARTEN ENTRANCE AGE

Periodically, districts and ESUs may be asked to voluntarily participate in an Early Childhood Outcome Family Survey to assess the impact of the program on the families served.
PURPOSE

The purpose of measuring child outcomes is to ensure that young children are active and successful participants during the early childhood years and in the future across all settings. Early childhood settings include home, child care, preschool or school programs, and in the community.

CHILD OUTCOME MEASURES

Results Matter in Nebraska calls for measuring child progress using an assessment system that...

• is based on ongoing observation of children engaged in real activities, with people they know, in familiar settings;
• reflects evidence-based practices;
• engages families and primary care providers as active participants;
• integrates information gathered across settings;
• is individualized to address each child’s unique ways of learning;
• informs decisions about day-to-day learning opportunities for children; and,
• reflects that development and learning are rooted in culture and supported by the family.

All children birth to kindergarten entrance age served by districts and ESUs must be included in the MyTeaching Strategies GOLD™ assessment system (hereafter referred to as GOLD). GOLD data for all children will be included in the State of the Schools Report and other avenues as appropriate.
PROCEDURES FOR CHILD DATA COLLECTION & ONLINE REPORTING

The requirements for child data collection and online reporting using GOLD are intended for use by teachers, practitioners, and program administrators who are responsible for measuring and reporting child progress. **Ongoing data collection and reporting requirements apply to all children birth to kindergarten entrance enrolled in district or ESU early childhood programs and services.**

An early childhood program is defined as any prekindergarten part-day or full-day program or in-home family support program with a stated purpose of promoting social, emotional, intellectual, language, physical, and aesthetic development and learning for children from birth to kindergarten entrance age and family development and support. This includes all districts and ESUs that serve children in one or more of the following programs:

- Early Childhood Education Grant Programs – Ages 3 to 5
- Early Childhood Education Endowment Programs – Ages Birth to 3 (Sixpence)
- District and ESU early childhood programs not receiving grant funds
- Early Childhood Special Education
- Early Development Network
- Any other defined Early Childhood Program

When appropriate, additional guidance is provided in this section for measuring and reporting progress for children with disabilities, as required by the federal Office of Special Education Programs (OSEP), U.S. Department of Education.

ONLINE SUBSCRIPTION

The GOLD online subscription fee is **$11.95 per child** per year under the NDE administrative umbrella. An unlimited number of archived slots are included in the subscription fee.

The GOLD subscription period is August 1 – July 31 each year.

GETTING STARTED – MANAGING GOLD ACCOUNTS

7. **Which children are required to be included in the GOLD system?**
   - All children from six-months to kindergarten entrance age enrolled in any program provided by a district or ESU, or in partnership with another entity must be included.
   - It is the responsibility of the school district to ensure that all children, as detailed above, are included in the GOLD system and are assigned an ADVISER ID, previously known as NSSRS. **The child’s ADVISER ID number must be entered into each child’s profile.** Refer to Question #17 for more information on the ADVISER ID.
8. Who is responsible for managing and verifying child outcome data for a district?
   • The district-designated GOLD online administrator is responsible for overseeing all data entry, reporting, and information updates for the district or ESU. At least one online administrator must be a district employee.
   • The district’s GOLD online administrator(s) is the official contact for all NDE communication
     ◦ The district may designate different district contacts for specific GOLD functions: GOLD online administrator, GOLD child portfolio transfer and GOLD child data verification. The contact person for each function is responsible for updating their contact information annually on the NDE website under Results Matter in Nebraska, Forms at: https://www.education.ne.gov/oec/birth-to-age-5-programs/
   • At least one online administrator in the district GOLD account must be a district employee. A district may elect to also include an ESU or Cooperative staff member, or Head Start manager as an online administrator.
   • Online administrator responsibilities include:
     ◦ completing the yearly subscription process;
     ◦ overseeing the data entry process to ensure that reliable and valid information is provided by teachers and other practitioners;
     ◦ monitoring Inter-rater Reliability (IRR) completion;
     ◦ communicating updates and changes to NDE; and,
     ◦ requesting NDE transfer of children between districts.
   • GOLD Monthly Job Targets assist online administrators and teachers to manage throughout the year. Refer to Appendix C.

9. Who holds the GOLD account?
   • Either the district, ESU or the Early Head Start/Head Start (EHS/HS) program may establish the child account.
   • If the EHS/HS program establishes the online child account, the district and EHS/HS program staff must identify and document in their Partnership Agreement who will be responsible for entering child demographics on the child profile page, who will be responsible for scoring, and who will be assigned as Team Members.
   • In a blended program, there must be an online administrator for the district and an online administrator for the EHS/HS.
     ◦ At the beginning of the year, there needs to be an agreement between the district and EHS/HS GOLD administrators regarding the level of access each user receives, i.e. ‘team member’ access.
   • If an infant/toddler-age child is placed in foster care in a district other than the resident school district, the child’s GOLD profile will be established by the foster or service district/program.
     ◦ The resident district should be marked on the child profile as the district of record.
     ◦ If the child has an existing profile, it should be transferred to the foster district and the resident district should remain the district of record.
   • If a preschool-age child is placed in foster care in a district other than the resident school district, the child’s GOLD profile will be established and maintained by the resident district until such time as the court, or other authorized official, decides that it is in the child’s best interest to receive his/her educational services in either the foster district or other specified program.
     ◦ The resident district should be marked on the child profile as the district of record.
     ◦ If the child has an existing profile, it should be transferred to the foster district or other specified program only if a change in educational service location has been determined necessary by the court or other authorized official.
10. Who has access to online child and district data?
   - Once data is entered into an online system, data is secure within the system. It is accessible only by those individuals authorized by the district to receive a user ID and password for the district’s online account.
   - NDE has administrative access to all Results Matter accounts in Nebraska. Only authorized NDE personnel with an assigned user ID and password have access to the Results Matter online systems. This allows for immediate problem-solving and checking on the status of online accounts at any time.
   - OSEP does not have access to the NDE Results Matter online data, and no individual child or district data is submitted to OSEP.

11. Can a user name and password be shared within the district?
   No! Every individual accessing a GOLD online account is required to have an individual user name and password.

DECISION RULES FOR DISTRICT AND HEAD START PROGRAM PARTNERSHIPS

When districts partner with Early Head Start and/or Head Start (EHS/HS) programs, items 12-16 apply:

12. Which assessment tool will be used to collect data?
   - If the EHS/HS program is using COR instead of GOLD, both the district and the EHS/HS must enter child scores in each system. District and EHS/HS program staff are responsible for identifying ways to share documentation to inform the assessment of each program and avoid duplicated effort.
   - If the district and the EHS/HS program staff collaborate and collect assessment data together using GOLD, the district and the EHS/HS programs must determine at the beginning of the year who will enter and score the data.

13. Who establishes the online child account?
   - Either the district OR the EHS/HS program may establish the child account.
   - If the EHS/HS program establishes the online child account, the district and EHS/HS program staff must identify who will enter child demographics on the online child profile page.
   - If there have been two separate accounts in GOLD for the same child the district and the EHS/HS program must determine and designate which program will carry the GOLD account for that child. Only one GOLD account is permitted per child. It is not possible to merge two accounts for a single child.

14. How will children be identified if they are served by both a Head Start and school district?
   - A drop-down on the child’s profile page in GOLD contains the names of all Head Start agencies using GOLD in Nebraska. The Head Start agency names appear in the same way as the current drop-down with school district names.
   - Only the Head Start “umbrella” name is listed in the drop-down menu, not town names. Each Head Start is able to pull Head Start child data as needed and appropriate – agency-wide, by program, by site, by teacher/classroom.
   - Teachers select the appropriate Head Start name in the Head Start drop-down, just like they do in the school district drop-down. This will help clean up data errors and allow child data to be more easily pulled into appropriate reports for children served by school districts only, Head Start only, or children served both by Head Start and school district.
   - The drop-down menu allows Head Start agencies to see/have access to child data for all children who are funded or served by Head Start. Children who are served by both Head Start and school districts in a blended program, or in Head Start for a child with an IFSP or IEP, are flagged with both a Head Start agency name and school district name in the drop-down menus.
15. What is the role of each partner in collecting data?
• Staff from both the district and the EHS/HS program will decide who will collect the data and score the child assessment.
• The district is accountable for meeting all NDE Results Matter requirements.

16. Who pays the online subscription cost?
• If the district places a child with an IFSP or an IEP in an EHS/HS program, the district may choose to reimburse the EHS/HS agency for the subscription cost, or the district may choose to pay the subscription cost directly to the publisher.
• If children are enrolled in both an EHS/HS and a district early childhood program, the district may choose to reimburse the EHS/HS agency for the subscription cost, or the district may choose to pay the subscription cost directly to the publisher.
• For all children enrolled in a district early childhood program, the district pays the subscription cost directly to the publisher.

DEMOGRAPHIC DATA ON CHILD’S PROFILE PAGE

17. What ID number should be entered?
• Enter the ADVISER ID number (formerly NSSRS) assigned by the district data manager. This 10-digit number is required by NDE for all districts and all children birth to kindergarten entrance age served by the district. Refer to Appendix B for more information regarding the ADVISER ID number.
  ◦ DO NOT use the Special Education SRS number.
  ◦ Sixpence programs should also refer to the Sixpence Grant Guidance document.

18. What is the child’s program entry date?
• For typically developing children, the first date of attendance or home visit in any district or ESU early childhood program is considered to be the entry date.
• For Part C: The child’s IFSP meeting date is the program entry date AND the IDEA entry date.
• For Part B: The child’s IEP meeting date is the IDEA entry date, the program entry date is either their IEP meeting date OR the beginning of Part B services date.
• For children who are already enrolled in a district early education program and are subsequently identified for services in Part C or Part B, the original date of program enrollment is the program entry date while the IFSP/IEP date is the IDEA entry date.

19. What is required on the demographic page?
• Every child is required to have an ADVISER, formerly NSSRS, ID number entered into their profile.
• Mark if the child has an IFSP or IEP.
• Funding sources: Mark all that apply to each child. This allows reporting by program funding source.
  ◦ Mark migrant funding ONLY for children in Migrant Projects supported by NDE.
• District name: Click on the district where the child is enrolled.
• Head Start name: Click on the Head Start agency where the child is enrolled, if applicable.
• Language:
  ◦ For children who do not use spoken language, use the primary language of the family.
  ◦ For children who do use spoken language, use the primary language of the child.

20. How are child records identified for Special Education reporting?
• Mark the child’s demographic profile as having an IFSP or IEP. This triggers their inclusion in the OSEP Preschool Special Education and Early Intervention GOLD reports.
• If a child has been in a district or ESU program and is verified for special education during the program year, check the IFSP or IEP box at the time of the first IFSP or IEP meeting.
ENTERING DATA

21. At what age does the GOLD assessment begin?
   • The initial GOLD assessment begins when the child is 6 months old.

22. What if a child is born prematurely, has a significant illness, or lengthy absences?
   • Do not adjust the child’s age for prematurity.
   • For any child birth to age five, the assessment can be postponed if the child has a significant illness or hospitalization during the 45-day assessment period, and as a result cannot have a valid observational assessment completed.
   • If a child is absent for 30 days or more for any reason, archive the child’s data and start over when/if the child returns.

23. When should the child’s entry assessment be completed?
   • Entry data must be recorded in the checkpoint period of the child’s program entry date, unless there are less than 45 days left in that checkpoint period. Continue to collect entry data in the next checkpoint period up to the 45 days, but record the data in the original checkpoint period.
     ◦ Information provided from evaluation and assessment materials, such as Routine Based Interviews or DAYC-2, that were gathered prior to the child’s IFSP/IEP entry date must be entered as documentation after the IFSP/IEP date in order to be considered valid in the GOLD system.
   • When there are less than 45 calendar days left in the checkpoint period, record the entry data in the subsequent checkpoint period. At the end of the 45 calendar days, finalize the checkpoint. Additional data may be collected after this time, but it will not be finalized.
     ◦ If entry data is completed before the end of the 45 calendar days, data may be assigned to the originating check point and finalized.
   • If there is a need to record data in a checkpoint period other than the current one, the entry checkpoint period must be changed manually.
   • To determine and report child’s entry and exit data in appropriate checkpoint periods, refer to Appendix D.
   • Children transitioning at age 3: The Part C exit/Part B entry assessment must be completed during the checkpoint period of the child’s third birthday; refer to entry/exit checklists in Appendix E. Beginning at that time, two GOLD checkpoints are required each year: Fall and Spring.
   • The following exceptions apply to children who are identified with a disability at the end of the school year:
     ◦ A child who enters Part C after March 1st and transitions to Part B in August should NOT be entered into Part C for OSEP reporting. That child would be entered as new to Part B in the fall.
     ◦ For a child who is newly-verified for Part B services after May 1, the observational assessment must be completed and all data entered online within 45 calendar days of the beginning of the following school year.

Refer to Appendix D: entry/exit chart and Question #34: How are “not yet” and “not observed” used in GOLD?
24. What are the GOLD checkpoint requirements for children birth to kindergarten entrance age? Finalized Fall and Spring checkpoint periods are required, with the additional requirements listed below. Any entry or exit data received during the Winter checkpoint period must be entered and finalized.

For children ages 3 to 5:
- All programs regardless of service location (children with and without IEPs):
  - Two GOLD checkpoints required: Fall and Spring each year
- Head Start programs or programs with Head Start partnerships, regardless of location, are required to follow Head Start Program Performance Standards (children with and without IEPs):
  - Three GOLD checkpoints required: Fall, Winter and Spring each year
- Programs that utilize Title I funding in early childhood programs, regardless of location, are required to follow Head Start Program Performance Standards (children with and without IEPs):
  - Three GOLD checkpoints required: Fall, Winter, and Spring each year
- Year-round, center-based Head Start programs, regardless of location, are required to follow Head Start Program Performance Standards (children with and without IEPs):
  - Four GOLD checkpoints required: Fall, Winter, Spring, and Summer each year

For infants and toddlers Birth to age 3:
- Enrolled in home AND center-based programs, or center-based programs only (children with and without IFSPs):
  - Two GOLD checkpoints required: Fall and Spring each year.
- Home-based programs only (children with IFSPs):
  - Two GOLD checkpoints required: at Part C entry and Part C exit.
  - Infants and toddlers with services coordination only must be entered at entry and exit checkpoints.
- Home-based programs only (children without IFSPs):
  - Two GOLD checkpoints required: Fall and Spring each year.
- Early Head Start programs, programs with Early Head Start partnerships or early childhood programs that utilize Title I funding, regardless of location, are required to follow Head Start Performance Standards for checkpoints (children with and without IFSPs).
- Year-round, center-based Early Head Start programs, regardless of location, are required to follow Head Start Program Performance Standards (children with and without IFSPs):
  - Four GOLD checkpoints required: Fall, Winter, Spring, and Summer each year

25. What are the checkpoint periods in GOLD each year?
- FALL: August 1 – October 31
- WINTER: November 1 – February 15
- SPRING: February 16 – May 31
- SUMMER: June 1 – July 31 [12-month programs only]
26. **Which GOLD assessment items must be completed?**

- For all children birth to kindergarten entrance age served by school districts, GOLD progressions must be documented online and finalized for **Objectives 1 through 23**. Objectives 1-23 include dimensions and progressions in six areas of development and learning:
  - Social-Emotional, Physical, Language, Cognitive, Literacy, and Math
  - The two English Language Acquisition objectives (Objectives 37 and 38) must also be completed for a child age 3 and older if indicated by the results of the GOLD Home Language Survey.

- Objectives 24-36 **are not required** to be assessed by the majority of school districts, but **are required** for Head Start, Head Start Collaboration programs and Title I funded early childhood programs. These Objectives are in the areas of Science and Technology, Social Studies, and The Arts.

- Of the 23 Objectives required for school districts, 13 are designed to be observed and recorded “on-the-spot” with a group of children. All Physical, Literacy, and Math Objectives are “on the spot.”
  - These objectives do not require any additional documentation beyond setting preliminary levels and finalizing checkpoints.

**COLOR BANDS**

27. **How are color bands assigned to children at entry?**

- For infants, toddlers and two’s: The color band is automatically assigned by date of birth when the child’s birthday is entered on the profile. The color band should automatically change on the child’s birthday.
  - The color band should be checked and the child’s profile updated if the color band did not change automatically.

- For children ages 3 to 5: The **teacher** assigns a color band according to the chronological age of the child and the number of years away from kindergarten at the beginning of the program/school year:
  - **Green** color band – A child who will be in preschool 2 years before kindergarten
  - **Blue** color band – A child who will be in preschool 1 year before kindergarten
  - Children with IEPs: Color bands apply to all children with IEPs, regardless of the level of a child’s delay.
28. When does a program need a transitional/virtual classroom?
The GOLD online system assesses child progress based upon their color band designation. Classrooms must designate themselves as infant/toddler or preschool. Due to this function of the system, there will be a need for a transitional/virtual classroom for children who turn three, but will not physically transition to a preschool center-based classroom until the following fall. The transitional/virtual classrooms should be designated as a preschool (green color band) room even though the child may still be receiving Early Intervention services.

The following are examples that explain when a transitional/virtual classroom is or is not used.

- **Example- Part C Exit with continuation of IFSP services:** Child exits from Part C services during the school year but will continue to receive the same services based on the IFSP until fall when IEP services will begin. No physical change is made in where the child is receiving services. Child should be exited from Part C and transferred to a transitional/virtual GOLD classroom. Child will transfer to the pre-k/three-year-old classroom in the fall.

- **Example- Part C Exit and transfer to Part B classroom immediately:** Child exits from Part C services during the school year and will receive IEP services in a pre-k/three-year-old classroom. Child should be exited from Part C and entered in the pre-k/three-year-old GOLD classroom. Child is not entered into a transitional/virtual classroom.

- **Example- Part C Exit of home-based services to Part B home-based services:** Child is receiving Part C home-based services and exits from Part C during the school year, but will begin to receive Part B home-based services. Child should be exited from Part C and transferred to the 3-5 home-based classroom. Child is **not** entered into a transitional/virtual classroom.

A child’s Part C exit data will serve as the Part B entry data.

29. Are preschool color bands changed during the year?
**No!** The color band is assigned based on the child’s age at entry or first day of preschool. A child in preschool must be on the same color band **all year**, regardless of the child’s birthday.

- **Exception:** If a child (infant/toddler) turns three during the year, the child’s color band is changed to green, and the child’s profile record should be moved according to the examples provided in item 28.

30. How is a child’s color band changed if a mistake has been made?
When a child has been assigned the wrong color band, two steps are required to change it:
1. Go to the child’s profile page and change Age or Class/Grade.
2. Scroll to the bottom of the profile page and click on “Checkpoint Period Settings” then click on “Update”. Update Age or Class/Grade for each checkpoint period as needed and click **Save**.
3. Click on “Save” button and the color band will be corrected for profile and all checkpoints.

31. Can a child be scored in any color band, regardless of their assigned entry color?
**Yes!** Checkpoints may be scored in any of the color bands based on the child’s documented skills and abilities during that checkpoint period.
32. What are the steps in the ongoing GOLD cycle?
- Step 1: **Observe, gain information and document** children’s learning during daily routines and activities;
- Step 2: **Analyze** your documentation and respond by providing the right strategy, material or support to scaffold the child’s learning;
- Step 3: **Evaluate** the child’s progress and decide what level each child has reached in terms of the objectives, based on the documentation you have collected; and
- Step 4: **Summarize, plan and communicate to others**. Summarize what you know, basing plans for individual children or groups of children on that knowledge, and communicate with families and administrators what children are learning, and what progress they have made.

33. What is required to rate a child’s skills or behaviors at a particular level?
- In order to rate a child’s skills or behaviors at a particular level, the child must be able to do them **consistently and independently across settings over time**. If not, the skill or behavior should be rated at an “in-between” level (i.e., 1, 3, 5). The child may also need a certain amount of adult support, which may be verbal, physical or visual, which would result in an “in-between” level.
- Indicators often include multiple expectations that are separated by a semicolon. All expectations must be met in order for the indicator to be achieved. The child must demonstrate skills related to all components included in the indicator.

34. How are “not yet” and “not observed” used in GOLD?
- “Not Yet” indicates that a child of that age is not yet expected to demonstrate a particular skill or behavior. Sometimes a skill does not begin to develop until a child is two years old, and another skill may not emerge until age 3 or 4. “Not Yet” applies only to a child who is not yet demonstrating a particular skill or behavior.
- “Not Observed” is to be used **ONLY on rare occasions**. It may be appropriately used if the child has had significant absences during a checkpoint period. It is never to be used because the teacher or child’s team has not observed the child in that area and has not gathered adequate documentation.
- “Not Yet” and “Not Observed” should not be used for children simply because they are new to the program.

35. Is supporting documentation required for scoring the assessment?
- **Yes!** GOLD is an authentic assessment system based on ongoing observation of children engaged in real activities, as documented or reported by family members and other people they spend time with, across a variety of settings. Supporting documentation is based on multiple sources and methods of documenting children’s learning and development. It captures the child’s context, i.e. the people and materials they know, those environments that are familiar to them, and any necessary strategies.
- An organized system of documenting observations should be used to achieve the following three essential components:
  - collect facts from ongoing observation and family/caregiver;
  - analyze and evaluate the collected facts to get a picture of the child’s development; and,
  - use what is learned to plan for both individual and group interests and needs.
- Regularly recording child observations to support numerical scores is a required teacher activity. Observations should be gathered throughout daily routines and activities. This is in contrast to focusing attention only on whether the child has reached a particular learning goal or achieved items on a checklist.
36. What are examples of supporting documentation?
- Examples of supporting documentation based on observation include but are not limited to: anecdotal notes, photographs, video and audio recordings, work samples, portfolios, parent reports, charts, graphs, IFSP and IEP reviews, home visit notes, dictation, data collection forms, child notebooks and folders.
- The GOLD application for portable electronic devices is a valuable tool for collecting documentation.

37. Is all documentation required to be online?
Online Documentation is required for the Fall and Spring Checkpoints. If a program is required to finalize the Winter Checkpoint, documentation does not have to be online but must be stored in such a way that it is accessible when requested by families, district administration or NDE staff.
- Any child with IFSP or IEP entry/exit data collected during the winter checkpoint MUST have all supporting documentation entered online.
- Refer to Question #24 to determine what checkpoints are required for each school district.

38. How much documentation is required?
- There is no set number of observations or amount of documentation that must be collected in relation to each objective. For some objectives, seeing a child perform a skill once is sufficient to make an informed decision. Other objectives need more evidence and documentation.

39. What information needs to be included in anecdotal notes?
- Anecdotal notes should include observed or reported facts, not subjective information.
- Anecdotes are short written records of observations. Begin the anecdote with information to set the scene (at work time). For the middle, jot down brief and specific information about what the child did or said (Donald filled the cup with beans and said “This is my coffee.”) To complete the anecdote, consider whether the observation has an ending or outcome (and showed it to Shelly who looked inside the cup). Keep in mind that all anecdotal notes become part of the legal record of the child and are subject to subpoena in court cases.

40. Why is ongoing data collection required?
Ongoing data collection is required to provide:
- continuous child progress monitoring;
- appropriate program planning for individual children and groups of children;
- a data-based method for evaluating the effectiveness of instructional approaches;
- systematic decision-making to allow early and effective responses to children’s learning;
- current information for parent conferences, transition meetings, IEP/IFSP meetings and others; and,
- classroom, program and district data for program administrators and other stakeholders to guide decision-making for improving child and program outcomes.
ASSURING RELIABLE AND VALID DATA

41. Who is responsible for assuring that staff from each program is trained in the use of the GOLD system, and that the data is reliable and valid?

- District GOLD online administrators are responsible for assuring that all staff and contracted providers are adequately trained and mentored in ongoing data collection and entering and scoring child observations.
- All teachers/practitioners new to GOLD must complete two required online courses through GOLD by September 30. These online courses are pre-requisites to attending the in-person trainings: a certificate must be obtained before registration. The two modules, GOLD Introduction and Introducing MyTeaching Strategies™ can be accessed through the Develop tab on MyTeaching Strategies™.
- Teachers/practitioners who have used GOLD for one year must complete Inter-rater Reliability (IRR) Certification every three years. The IRR is a pre-requisite to attend any of the advance level in-person trainings for users.
- Online Administrators and Users should:
  - Complete GOLD online courses;
  - Attend GOLD in-person trainings;
  - Complete the IRR following the first year using GOLD and every three years after;
  - Attend the monthly TA Zoom calls hosted by NDE.
  - Refer to the Flowchart in Appendix G for more information.

42. What are the data collection and scoring responsibilities of staff?

- Classroom Teacher or Co-Teacher (may also be called lead teacher or head teacher) — can enter observations and score checkpoints for all children
- Home-based staff/primary providers for children with IFSPs or IEPs and Sixpence programs — can enter observations, family/caregiver reports and score checkpoints for all children
- Classroom Assistant Teacher (may also be called para, family educator, teacher aide) — can enter observations for children; cannot score checkpoints
- Team Member (itinerant staff) — can enter observations and preliminary levels for children assigned to that team member; cannot finalize checkpoints.
  - To add a team member outside of your program, contact:
    - Alyssa Anson: alyssa.anson@nebraska.gov
    - Kayla Parr: kayla.parr@nebraska.gov

43. Who is required to complete GOLD Inter-rater Reliability (IRR) Certification?

- IRR Certification is required to be completed online by each teacher/practitioner responsible for scoring child observations and documentation in GOLD for children birth to age five.
  - GOLD will NOT send notification emails to users when IRR is due for renewal.
  - Once completed, teachers/practitioners must reestablish IRR certification at least every three years. Districts may require more frequent certification.
- IRR is not required for teachers/practitioners new to GOLD in the current school year. One year of GOLD experience is necessary prior to completing IRR Certification.
- NDE requires that Individual Inter-rater Reliability (IRR) be completed by December 31 of each school year. Districts may establish an earlier completion date.
- GOLD online administrators and program supervisors must plan for and assure that teachers/practitioners who score child documentation in GOLD have ample time to complete the IRR process.
- Teacher IRR test information is tied to the teacher’s account. GOLD online administrators can run a report under the Reports tab and download the report.
- There is no cost for the IRR. It is provided as part of each district or Head Start GOLD subscription.
44. Which age groups in the IRR must be completed?
   • Teachers/practitioners are required to complete the IRR that accurately reflects the age group/s of the children. This must include dual language and children with disabilities regardless of whether a teacher is currently serving dual language learners or children with disabilities:
     ◦ Birth-age 2, including children with disabilities.
     ◦ Preschool, including dual language learners and children with disabilities.
   • Teachers/Practitioners working with children birth to kindergarten entrance age are required to complete certification for both age groups: Birth-age 2, including children with disabilities AND Preschool, including dual-language learners and children with disabilities.

45. How much time do teachers need to complete the IRR?
   • It takes an average of 3 hours to complete one age group. For teachers/providers who work across two age groups (Birth to 2 and 3 to 5), 6 hours should be allowed for completion. The IRR does not need to be completed at one time.
   • There are no time limits when taking the IRR. As much time as needed may be taken.
   • A score of at least 80 percent is required in order to attain certification. If a score in a particular area of development/learning is less than 80% (i.e. social-emotional), then only that area is required to be retaken, not the entire IRR. If an area needs to be re-taken, a new child portfolio for a different child will be scored.

46. Where are detailed IRR instructions located?
   GOLD provides excellent and detailed IRR instructions and resources online. GOLD online managers, teachers and providers can download this guidance by clicking on the Question Mark button in GOLD (bottom left corner of screen) to link to the resources below.
   • How to Guide for Teachers: Interrater Reliability Certification
   • How to Video: Interrater Reliability Certification
   • How to Guide for Administrators: Goals

47. How do teachers/practitioners begin the IRR process?
   Each individual will:
   2. Choose “Inter-rater Reliability”.
   3. Choose “New Certification” and agree to the terms of the test to be given a list of test options.
   4. Choose appropriate assessment options; the assessment will then be available.
EXITING, TRANSFERRING, ARCHIVING AND DELETING DATA

48. What are the exit requirements?
   • Children must have complete and finalized checkpoint data at the time of exit from the program. For most children this is May 31 (end of the Spring checkpoint period).
   • For a child who exits during the year, exit data is completed in the checkpoint period nearest the child’s date of exit. Refer to Appendix D.
   • Prior to exiting the early childhood program for kindergarten, Spring checkpoint data must be completed and finalized. This exit data must be archived for one year.
   • There is no “exit button” to click when exiting typically-developing children.
   • If a child dies during any given checkpoint period and the staff is unable to collect full documentation for the current checkpoint, exit the child as of the previous checkpoint (i.e., If the child dies during the Spring checkpoint with unfinished documentation; the district should exit the child using the Winter checkpoint documentation and levels.) If there is completed documentation for the current checkpoint, exit the child during the current checkpoint. If the child was in a program less than six months, delete the record.

49. For children who have IEPs, when is the exit assessment completed?
   • For preschoolers exiting the Part B program or entering kindergarten, data must be collected and entered in the Spring checkpoint. Refer to Appendix D.

50. For children who have IFSPs, when is the exit assessment completed?
The exit assessment from Part C must be completed in the checkpoint period of the child’s third birthday (age 36 months). Refer to Appendix D.

51. For children who are turning age 3 or age 5 during the summer, when should they be exited in GOLD?
The exit assessment should be completed in the Spring checkpoint for all children turning age 3 or age 5 during the summer.

52. How is a child’s GOLD portfolio transferred between programs?
   • To transfer a child’s portfolio, complete the GOLD Child Portfolio Transfer Request found on the NDE Results Matter webpage main menu: www.education.ne.gov/oec/birth-to-age-5-programs
     ◦ The GOLD transfer form contains a link to the GOLD child transfer contacts for Administrators.
   • Only finalized checkpoint scores from the portfolio will transfer. Online documentation does not transfer.

53. Can teachers keep other information when a child is transferred?
   • Individual teacher lesson plans are tied to the class and stay if the class stays.

54. Is there a way to export documentation so it is not completely lost?
   • Documentation stays in the child’s portfolio. To keep a record of the documentation in hard copy, log in as the teacher and print the child’s documentation.

55. When should child data be archived?
   • Child data is archived:
     ◦ When the child has exited, both entry and exit data must be finalized.
     ◦ When the child temporarily leaves the program.
     ◦ When the child moves from the district but is still eligible to participate in an early childhood program.
56. How long should archived data be kept?
- Data should be archived for one year following the child’s exit from the program. To keep data longer, export to an excel spreadsheet and save. The data will then be available for maintaining a longitudinal database, running trend data across time, looking for patterns in the data, verifying improved child outcomes over time, etc.

57. Why is child data archived rather than deleted?
- Archiving child data allows the district, ESU, and NDE to run multiyear analyses on child progress and outcomes to better assess the effectiveness of the early childhood program over time. Seeing trends over time allows for effective decision making at the district and state levels.

58. When can archived child data be deleted?
- Archived child data may be deleted for children who exited in 2017-18 or prior years.
- Deleted records are saved in GOLD for 90 days. If accidentally deleted, child data can be restored within 90 days. After 90 days, the data is permanently deleted.

59. When can teacher profiles be disabled?
- Accounts for teachers who leave a district must be ‘Disabled’ so the teacher no longer has access to the district online account. This action maintains all child information.
ENTRY/EXIT FLOW CHART FOR CHILDREN WHO HAVE IFSPS AND IEPS

Part C (Birth – 3)
For a Newly-Verified Child:

Entry Date = IFSP Date
When the Child Exits Part C:

- If child is in Program Less than 6 months
  - No Exit Data Collected
- Child in Program 6 months or more
  - Collect exit data within 90 days prior to the child entering Part B 619 services or leaving Part C program

NOTE: A child who enters Part C after March 1st and transitions to Part B 619 in August should NOT be entered into Part C for OSEP reporting. That child would be entered as new to Part B 619 in the fall.

Part B 619 (Ages 3-5)
For a Newly-Verified Child or Child Transitioning from Part C:

Entry Date = IEP Date or Date When Part B Services are Initiated
When the Child Exits Part B:

- If child is in Program Less than 6 months
  - No Exit Data Collected
- Child in Program 6 months or more
  - Collect exit data within 90 days prior to the child entering kindergarten or leaving Part B 619 program
PURPOSE

Districts and ESUs collect a plethora of data. This data is useless unless it is used for planning curriculum, altering teaching strategies and improving the effectiveness of services. Both Results Driven Accountability (RDA) and Accountability for a Quality Education System, Today and Tomorrow (AQuESTT) require school districts and ESUs to use child outcome data to inform practices that improve results for all children.

CONTINUOUS PROGRAM IMPROVEMENT

Results Matter in Nebraska calls for a continuous program improvement process that:

- is based on child, program and family outcomes data;
- supports developmentally appropriate curriculum expectations;
- implements evidence-based practices and instructional strategies;
- promotes seamless transition practices from early care and education programs through kindergarten and primary grades;
- engages family and community; and,
- aligns with AdvancED and/or Nebraska Frameworks for Continuous Improvement.

Best practice in the field of early childhood indicates that consistent and ongoing assessment supports effective and responsive teaching practices which result in improved child outcomes over time. Each program may set higher expectations for the frequency with which staff record child progress. In order to support continued growth and utilization of data, ongoing training will be provided by NDE.

A current listing of scheduled training opportunities to learn more about utilizing data for individual classroom and program improvement is available on the NDE Early Childhood Training Calendar: ecrecords.education.ne.gov/Calendar.aspx
LOCAL DISSEMINATION BY DISTRICTS AND ESUs

- All districts and ESUs are required by Rule 11 to create a written plan for local dissemination of program quality and child outcomes during the first year of operation. The plan may be updated in subsequent years as determined by the district or ESU.
- The dissemination plan may include, but is not limited to, sharing data with the local school board, in the local newspaper, at a community meeting, with advisory committees, on the district website and other social media, and other presentations.
- Districts and ESUs must disseminate the results of all birth to kindergarten entrance age program evaluations each year according to the plan.

STATEWIDE DISSEMINATION BY NEBRASKA DEPARTMENT OF EDUCATION

Within Nebraska

Each year, the Results Matter data is analyzed and published in an annual report disseminated to the State Board of Education, Nebraska Legislature, Early Childhood Education Endowment Board of Trustees, and NDE. Data is used to report the progress of programs in meeting child, program and family outcomes.

The report, Early Childhood Education in Nebraska Public School District, Educational Service Unit and Head Start Programs State Report, is available at:
https://www.education.ne.gov/oec/birth-to-age-5-programs/

The Sixpence Annual Evaluation Report is available at:
https://www.singasongofsixpence.org/about/index.html

- The NDE Office of Special Education will annually release Part B Performance Reports for each district at www.education.ne.gov/sped/public-reporting/ and Part C Performance Reports for each Planning Region Team (PRT) at http://edn.ne.gov/cms/regional-data. Public reporting is required by OSEP for IDEA Parts B and C.

To the federal Office of Special Education Programs (OSEP)

- By February 1 of each year, the NDE Office of Special Education is required to submit Annual Performance Reports (APRs) that include state-aggregated child outcomes data for children with IEPs and child and family outcomes for children with IFSPs.
- The data in both APRs report the total number and percentage of children ages Birth to 3 and ages 3 to 5 in the reporting categories for the three child outcomes, as well as progress made toward meeting state targets for each outcome. Additionally, the Part C APR reports the progress made toward meeting state targets for each of the three family outcomes.
The Early Childhood Technical Assistance Center (ECTA) has developed a process for converting early childhood assessment results to scores on the three OSEP-required child outcomes. These child outcome scores allow us to compare results from across the state. This chart describes the assessment process for children B-5 served by school districts and the Early Development Network through early intervention (Part C) and early childhood special education (Part B). This process culminates in the reporting of Nebraska child outcomes data to the federal Office of Special Education Programs (OSEP) for Part C Indicator 3 and Part B Indicator 7.

The Assessment Process:

**Body of Evidence**
- Systematic, ongoing observations
- Documentation (observation anecdotes, photos, videos, work samples)
- Family reports
- Assessment data from other sources

**Completion of Approved Assessment**
- Body of evidence considered
- Assessment in all domains completed
- Results entered online

**Conversion to Summary Statements for Target Setting**
- Automated conversion
- Combines OSEP category data to describe child progress
- Used as the basis for setting targets for improvement

**Conversion to OSEP Reporting Categories**
- Automated conversion
- Yields 5 OSEP reporting categories for each outcome
- Reported for all children exiting early intervention or preschool special education services

**Conversion to Child Outcomes Scores**
- Automated conversion using the online systems
- Conversion calibrated to each assessment tool based on research data
- Allows comparison of results across different assessments

**Three Child Outcomes:**
A. Children have positive social skills including positive social relationships.
B. Children acquire and use knowledge and skills including language/communication.
C. Children take appropriate action to meet their needs.

**Two OSEP Summary Statements:**
For each of the child outcomes:
1. Of those children who entered the program below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they exited the program.
2. The percent of children who were functioning within age expectations in each Outcome by the time they exited the program.
TRAINING & TECHNICAL ASSISTANCE

GENERAL QUESTIONS

For questions about the administration of Results Matter contact:
• Kayla Parr: kayla.parr@nebraska.gov
• Kristine Luebbe: kristine.luebbe@nebraska.gov

For questions related to Results Matter implementation:
Contact the staff person assigned to your district or ESU. Refer to map on page 30.
• Alyssa Anson: alyssa.anson@nebraskachildren.org
• Kristine Luebbe: kristine.luebbe@nebraska.gov
• Kim Texel: kim.texel@nebraska.gov

For questions related to Results Matter & Sixpence implementation:
Contact the staff person assigned to your district. Refer to map on page 31.
• Deb Reiman: dreiman@nebraskachildren.org
• Karen Pinkelman: kpinkelman@nebraskachildren.org
• Stephanni Renn: srenn@nebraskachildren.org

CHILD OUTCOMES

GOLD Technical Assistance Workflow:

Step 1: Navigate through online resources available in the Nebraska’s Learning Pathways for GOLD: A Guide for Users and Administrators for checklists, user guides and webinars found at: https://www.education.ne.gov/wp-content/uploads/2019/06/Nebraskas-Learning-Pathways-for-GOLD.pdf

Step 2: If user is unable to resolve issue/question utilizing online resources, the next options include:
• Submit a support case via the portal: https://teachingstrategies.force.com/portal/s/submit-a-case
  ◦ Once a case is submitted, allow up to 72 hours before an initial response
  ◦ Submitting a case will create a ticket number that allows for more efficient tracking by GOLD
• Call GOLD technical support: 866-736-5913
  ◦ Issues/Questions that GOLD is unable to resolve will be escalated to Tier II—time between escalation and response time may be up to 72 hours.

Step 3: If a user experiences a significant delay in response, or their issue is not resolved when contacting GOLD, contact NDE:
• Kayla Parr: kayla.parr@nebraska.gov
• Alyssa Anson: alyssa.anson@nebraska.gov

When contacting NDE, have the ticket number available; this allows NDE to escalate the case directly to the GOLD liaison.
For questions about the GOLD Inter-rater Reliability (IRR) Certification contact:
• Kayla Parr: kayla.parr@nebraska.gov
• Alyssa Anson: alyssa.anson@nebraska.gov

For district to district transfers contact:
• Becky Zessin: becky.zessin@unmc.edu; direct transfers

For data verification and district reports contact:
• Barb Jackson: bjjackso@unmc.edu

For GOLD technical support, sales, and license renewals:
• Call 1-866-736-5913
• The Help link: located in the upper right corner of the website at my.teachingstrategies.com

For questions about GOLD training contact:
• Linda Bray: linda.bray@nebraska.gov
• Kayla Parr: kayla.parr@nebraska.gov
• Alyssa Anson: alyssa.anson@nebraska.gov

PROGRAM OUTCOMES

For questions about the observation process:
Contact the staff person assigned to your district or ESU:
• Alyssa Anson: alyssa.anson@nebraska.gov
• Kristine Luebbe: kristine.luebbe@nebraska.gov
• Kim Texel: kim.texel@nebraska.gov

For questions about ERS and CLASS training contact:
• Jenny Fleming: jenny.fleming@nebraska.gov
• Alyssa Anson: alyssa.anson@nebraska.gov

ADVISER DATA ELEMENT: PROGRAMS
Early Childhood Program
For 2019-2020

All districts must complete the Advanced Data Views Improving Student Education Response (ADVISER) Programs Data Element: Early Childhood Program for all children birth to kindergarten entrance age enrolled in a district or ESU center-based early childhood program. The lists below will assist district personnel in determining the appropriate Early Learning Setting Code to use for the early childhood program(s) operated by the district. It may be appropriate that more than one Early Learning Setting Code will be used within the district; however, an individual student will only be assigned one Early Learning Setting Code.

Please refer to the ADVISER website www.education.ne.gov/dataservices/adviser-resources/ for additional information. Districts with a new early childhood program, districts that no longer have an early childhood program, and districts with questions regarding the Programs Data Element: Early Childhood Program should contact ADVISERHelp@nebraskacloud.org.

Determining & Reporting Child’s Entry & Exit Data in Appropriate Checkpoint Period

Entry and Exit Date for Children without IFSP/IEP

Entry Date for Children on IFSP or IEP in 9-month program

Exit Date for Children on IFSP or IEP in 9-month program

Entry Date for Children on IFSP or IEP in 12-month program

Exit Date for Children on IFSP or IEP in 12-month program

NOTES:

*A child who enters Part C after March 1 and will transition to Part B in August should NOT be entered in Part C. Enter in Fall in Part B.

*For a child with an IFSP, an exit assessment must be completed by the child’s 3rd birthday in the checkpoint period corresponding to the 45-day window.

*In rare instances, an IEP team may determine that a 5-year-old continue in a district preschool program. If the child turns 6 while in the preschool program, the child’s exit assessment must be completed by the child’s 6th birthday following the same 45-day rule as listed in the 9 and 12-month exit date charts.

*For a child who enters Part B and receives services for less than six months, no entry or exit data is required.
GOLD Entry Checklist – Part C

ALL CHILDREN, regardless of service type (SC, ECSE, SLP, OT, PT, etc.) or frequency of service, MUST be entered and exited on the Teaching Strategies GOLD online system!

1. Is the child over six-months old?
   a. Yes – Proceed to item two.
   b. No – Stop, enter the child’s six-month birthdate into your electronic or paper calendar. Return to this checklist at that point in time.

2. Is the child going to be receiving Part C services for six months or longer?
   a. Yes – Proceed to item three.
   b. No – Stop, the child will not need to be entered into Teaching Strategies GOLD for reporting purposes at this time.

   □ If the child will be moving into Part B (Preschool) services within the next six months, notify the Part B provider that the child will require Teaching Strategies entry data at the time of transition!

3. Create a child profile record on Teaching Strategies GOLD
   □ From your opening screen, go to your dropdown navigation window (circle with your initials in the right-hand corner) and select “Manage _______(Class name)”
   □ On the next screen, under the left-side column, select “Add Child”

For the NEW Form, choose from the options provided on the required* drop-down menus below:

1. *Select Class
2. Class Details
   a. *Age or Class/Grade
   b. *First Day in Program - When did the child begin Part C Services? This will always be the same as the IFSP date.
3. Child Details
   a. *Child’s First and Last Name
   b. Child’s Nickname – if preferred
   c. Identifier – only used for district purposes, such as DISTRICT Child ID #
   d. *Gender
   e. *Birth Date
   f. *Primary Language – be specific, if you are unsure, ASK the family for clarification
   g. *Ethnicity Level 1 - be specific, if you are unsure, ASK the family for clarification
   h. *Race Level 1 - be specific, if you are unsure, ASK the family for clarification
   i. Student ID # - optional, if you choose to fill this section out, student ID# refers to your district ID#
   j. *ADVISER ID # - this is the number assigned to the child by the state when they first enter the educational system. It is REQUIRED to be placed in the child’s profile so that the State of Nebraska can easily access the child’s GOLD data accurately.
4. *Funding Sources- ASK your online administrator which boxes should be marked for this particular child
5. *Custom Funding Sources - Head Start Agency
   □ If the child is enrolled in Head Start, specify which program they attend
   □ If the child is not enrolled in Head Start, click “NA”
6. *IFSP – mark as yes or no
   a. *What date will this child begin to receive IFSP services? Entry into IDEA Part C should be the original IFSP date.
6. *IFSP – mark as yes or no
   a. *What date will this child begin to receive IFSP services? Entry into IDEA Part C should be the original IFSP date.
7. *Free and Reduced Lunch – Mark as appropriate
8. *Assess this child using the Spanish Language and Literacy Objectives? Mark as appropriate
9. Custom Questions: School District – Select your school district
10. If all information is accurate, click ‘Save’
11. Begin documenting Entry Data into the system
   □ All initial documentation must be entered within 45 calendar days of the IFSP date.

   If you require further information or have additional questions please refer to your
   Results Matter Technical Assistance Document!
GOLD Exit Checklist - Part C

ALL CHILDREN, regardless of service type (SC, ECSE, SLP, OT, PT, etc.) or frequency of service, MUST be entered and exited on the Teaching Strategies GOLD online system!

1. Has the child been receiving Part C services for six months or longer?
   a. Yes – Proceed to item two.
   b. No – Stop, the child cannot be exited from Teaching Strategies GOLD for reporting purposes.
      □ If the child will be moving into Part B (Preschool) services, but has been in Part C less than six months, the Part C record should be deleted. Notify the Part B (preschool) provider that the child will require Teaching Strategies entry data at the time of transition.

2. Make sure all documentation for Exit purposes has been gathered and FINALIZED PRIOR TO THE CHILD’S 3rd BIRTHDAY.
   a. Note that all documentation and finalization MUST be reported during the SAME checkpoint period in order for the child to be exited properly.

GOLD Exit Checklist - Part C

1. From your opening screen, go to your dropdown navigation window (circle with your initials in the right-hand corner) and select “Manage ____________ (Class name)”

2. Click on the ‘Children’ Tab on your GOLD Account
   a. Select ‘OSEP Exit Request’ from the menu on the left side of your screen
      □ A list of child students who have an IFSP will appear. You will see either Yes or No listed in the ‘Sufficient Checkpoint Data for Exit?’
   b. If YES is listed, the child can be exited and you will need to proceed to step 3
   c. If NO is listed, then there is not enough checkpoint data added to that child’s records and/or exit checkpoint periods. You will skip step 3 and proceed to step 4

Choose from the options provided on the required* drop-down menus below:

3. For the child record listed as YES, follow the steps below to request the OSEP exit:
   a. *Exit Date
   b. *Exit Tool – Select ‘Teaching Strategies Gold’
   c. *Exit Reason – mark as appropriate
   d. Click ‘Check Eligibility’
      □ If approved, click ‘Request OPEP Exit’
   e. A request to exit/transfer the child will be sent to your GOLD Online Administrator and the child will no longer appear on the Request OSEP Exit list

4. Children Requiring Additional Data
   a. If the child you need to exit, is listed on the table at the bottom of the page as requiring more data, you must go through and troubleshoot the issue.
      □ Ensure that the child’s entry and exit dates are at least six months apart.
□ Ensure that the child has finalized entry and exit checkpoints in all required domains
□ Ensure that the entry AND exit tools are listed as Teaching Strategies GOLD

b. If you are unable to determine the reason why the child is not eligible for exit, contact your GOLD Online Administrator or an NDE designee for assistance.

5. Once all children have been successfully submitted to your GOLD Online Administrator for exit, you have reached the end of your responsibilities.

If you require further information or have additional questions, please refer to your Results Matter Technical Assistance Document!
GOLD Entry Checklist - Part B

ALL CHILDREN, regardless of service type (SC, ECSE, SLP, OT, PT, etc.) or frequency of service, MUST be entered and exited on the Teaching Strategies GOLD online system!

1. Is the child going to be receiving Part B services for six months or longer?
   a. Yes – Proceed to item two.
   b. No – Stop, the child will not need to be entered into Teaching Strategies Gold for reporting purposes at this time.

2. Create a child profile record on Teaching Strategies GOLD
   □ From your opening screen, go to your dropdown navigation window (circle with your initials in the right-hand corner) and select “Manage________(Class name)”
   □ On the next screen, under the left-side column, select “Add Child”

For the NEW Form, choose from the options provided on the required* drop-down menus below:

1. *Select Class
2. Class Details
   a. *Age or Class/Grade
   b. *First Day in Program - When did the child begin Part C Services? This will always be the same as the IFSP date.
3. Child Details
   a. *Child’s First and Last Name
   b. Child’s Nickname – if preferred
   c. Identifier – only used for district purposes, such as DISTRICT Child ID #
   d. *Gender
   e. *Birth Date
   f. *Primary Language – be specific, if you are unsure, ASK the family for clarification
   g. *Ethnicity Level 1 - be specific, if you are unsure, ASK the family for clarification
   h. *Race Level 1 - be specific, if you are unsure, ASK the family for clarification
   i. Student ID # - optional, if you choose to fill this section out, student ID# refers to your district ID #
   j. *ADVISER ID # - this is the number assigned to the child by the state when they first enter the educational system. It is REQUIRED to be placed in the child’s profile so that the State of Nebraska can easily access the child’s GOLD data accurately.
4. *Funding Sources- ASK your online administrator which boxes should be marked for this particular child
5. *Custom Funding Sources - Head Start Agency
   □ If the child is enrolled in Head Start, specify which program they attend
   □ If the child is not enrolled in Head Start, click “NA”
6. *IEP – mark as yes or no
   a. What date will this child begin to receive IEP services? Entry into IDEA Part B should be the original IEP date.
   b. Preschool Entry Assessment Tool – should always be Teaching Strategies GOLD
7. *Free and Reduced Lunch – Mark as appropriate
8. *Assess this child using the Spanish Language and Literacy Objectives? Mark as appropriate
9. Custom Questions: School District – Select your school district
10. If all information is accurate, click ‘Save’
11. Begin documenting Entry Data into the system
All initial documentation must be entered within 45 calendar days of the IEP date unless the child had Exit Data from Part C. In this case, the child’s Part C Exit will become your Part B Entry data. Proceed with documentation in your district’s designated checkpoint cycles.

If you require further information or have additional questions please refer to your Results Matter Technical Assistance Document!
GOLD Exit Checklist - Part B

ALL CHILDREN, regardless of service type (SC, ECSE, SLP, OT, PT, etc.) or frequency of service, MUST be entered and exited on the Teaching Strategies GOLD online system!

1. Has the child been receiving Part B services for six months or longer?
   a. Yes – Proceed to item two.
   b. No – Stop, the child cannot be exited from Teaching Strategies GOLD for reporting purposes.
      □ If the child will be moving into Kindergarten services but has been in Part B less than six months, the Part B record should be deleted.

2. Make sure all documentation for Exit purposes has been gathered and finalized within the last 90 days prior to the child’s exit date.
   a. Note that all documentation and finalization MUST be reported during the SAME checkpoint period in order for the child to be exited properly.

GOLD Exit Checklist - Part B

1. From your opening screen, go to your dropdown navigation window (circle with your initials in the right-hand corner) and select “Manage ______ (Class name)”

2. Click on the ‘Children’ Tab on your GOLD Account
   a. Select ‘OSEP Exit Request’ from the menu on the left side of your screen
      □ A list of students who have an IEP will appear. You will see either Yes or No listed in the ‘Sufficient Checkpoint Data for Exit?’
   b. If YES is listed, the child can be exited and you will need to proceed to step 3.
   c. If NO is listed, then there is not enough checkpoint data added to that child’s records and/or exit checkpoint periods
      □ You will skip step 3 and proceed to step 4

Choose from the options provided on the required* drop-down menus below:

3. For the child record listed as YES, follow the steps below to request the OSEP exit:
   a. *Exit Date
   b. *Exit Tool – Select ‘Teaching Strategies Gold’
   c. *Exit Reason – mark as appropriate
   d. Click ‘Check Eligibility’
      □ If approved, click ‘Request OPEP Exit’
   e. A request to exit/transfer the child will be sent to your GOLD Online Administrator and the child will no longer appear on the Request OSEP Exit list

4. Children Requiring Additional Data
   a. If the child you need to exit is listed on the table as not having ‘sufficient data’, you must go through and troubleshoot the issue.
      □ Ensure that the child’s entry and exit dates are at least six months apart.
      □ Ensure that the child has finalized entry and exit checkpoints in all required domains
      □ Ensure that the entry AND exit tools are listed as Teaching Strategies GOLD
b. If you are unable to determine the reason why the child is not eligible for exit, contact your GOLD Online Administrator or an NDE designee for assistance.

5. Once all children have been successfully submitted to your GOLD Online Administrator for exit, you have reached the end of your responsibilities.
