Educational Service Unit 13 and the Migrant Education Program

Dear Employer:

The Staff at ESU 13 is committed to working collaboratively with livestock industries and agricultural employers to identify, enroll, and serve eligible children and youth throughout our 19 county service area. Our program works to ensure that children and youth in the farming, ranching, livestock, food processing or any agricultural industry achieve the same educational standards required of all children.

We greatly appreciate your efforts and support of educational programs for children and youth in our community. Through our joint efforts we stand to make a real difference in their lives. Let us work together to enhance their learning opportunities; to advance their educational progress and promote their academic success in school!

We look forward to working with you!

Our program is available to schools and families across Nebraska. Its focus is to provide educational opportunities to families who work in farming, ranching, livestock or food processing. Our staff would like to visit with your employee(s) to determine if they or their children are eligible for our program, and provide information about the services we offer to the families.

- Do your employees have children who could use our educational support, services and resources?

YES _____ NO _____

- Do you hire youth under age 22 who could use educational tools and support?

YES _____ NO _____

PLEASE HAVE YOUR EMPLOYEES COMPLETE THE SURVEY

NOTE: The information gathered in this survey will be held in the **Strictest of Confidentiality** and will not be shared with anyone without your permission. It is solely intended for the purpose of identifying whether there are youth and/or children in your family who may qualify for our program.

WORKER SURVEY

Dear Worker: Thank you for participating in this survey. We're providing this form in cooperation with your employer to find out if you or your children qualify for our **Free Educational Services**. Please take a few minutes to answer the following questions.
